

Year 1 English

Spoken Language

Children will be taught to . . .

- listen to statements made by adults and classmates, respond appropriately; ask relevant questions to clarify knowledge, to expand their knowledge and take opportunities to learn new vocabulary across all subjects
- explain what their opinions are and why they hold them; maintain attention and participate actively in short collaborative conversations, stay on topic and respond to comments
- give well-structured descriptions, explanations and narratives for different purposes, including for expressing feelings (to a level appropriate to age)
- use spoken language to develop understanding through speculating, predicting, imagining and exploring ideas (to a level appropriate to age)
- speak audibly, with developing fluency and an increasing command of Standard English; participate in class discussions, role play, improvisations, presentations such as student voice, performances in the studio and to a live audience,
- attempt to gain the interest of the listener(s) and begin to think about the opinions and views of others; to be aware of formal & informal manners of speaking to an age appropriate level (registers of communication).

Reading – Word Reading

Children will be taught to . . .

- apply phonic knowledge and skills as the route to decode words
- be confident in the recall of ReadWrite Inc. sound sets 1, 2 & 3.
- read both real and pseudo words accurately by decoding and blending sounds in unfamiliar words containing GPCs that have been taught
- read common red words (sight vocabulary), noting unusual correspondences between spelling and sound and where these occur in the word
- read words containing taught GPCs and –s, –es, –ing, –ed, –er and –est endings and read other words of more than one syllable that contain taught GPCs
- read words with contractions [for example, I'm, I'll, we'll], and understand that the apostrophe represents the omitted letter(s)
- read aloud accurately books that are consistent with their developing phonic knowledge and that do not require them to use other strategies to work out words and re-read work to gain extra levels of meaning.

Reading - Comprehension

Engagement in group and class reading

Children will be taught to . . .

- listen to and discuss a wide range of poems, stories and non-fiction at a level beyond that at which they can read independently and will link what they read or hear read to their own experiences
- become very familiar with key stories, fairy stories and traditional tales, retelling them and considering their particular characteristics, recognising and joining in with predictable phrases
- have knowledge of rhymes with repetitive patterns and poems, and to recite some by heart
- discuss word meanings, linking new meanings to those already known
- have experience of basic textual documents such as signs and lists. They will also have experience of basic information texts (reports, recounts and dictionaries)

Independent reading

Children will be taught to . . .

- draw on what they already know or on background information and vocabulary provided by the teacher
- check that the text makes sense to them as they read and correct inaccurate reading
- discuss the significance of the title and events
- make inferences on the basis of what is being said and done and predict what might happen on the basis of what has been read so far
- participate in discussions about what is read to them, taking turns and listening to what others say and explain clearly their understanding of what is read to them.

Year 1 English

Writing

Spelling Children will be taught to . . .

- spell words containing each of the 40+ phonemes already taught and common exception words, such as the days of the week
- name the letters of the alphabet in order and use letter names to distinguish between alternative spellings of the same sound
- add prefixes and suffixes using the spelling rule for adding –s or –es as the plural marker for nouns and the third person singular marker for verbs; use the prefix *un-* and use –ing, –ed, –er and –est where no change is needed in the spelling of root words [for example, helping, helped, helper, eating, quicker, quickest]
- apply simple spelling rules and guidance, as suggested by ReadWrite Inc.
- write from memory simple sentences dictated by the teacher that include words using the GPCs and common exception words taught so far.

Handwriting

Children will be taught to . . .

- sit correctly at a table, holding a pencil comfortably and correctly; begin to form lower-case letters in the correct direction, starting and finishing them in the right place; forms capital letters and forms digits 0-9
- understand which letters belong to which handwriting ‘families’ (i.e. letters that are formed in similar ways) and to practise these.

Grammar

Children will be taught to . . .

- leave spaces between words
- join words and clauses; begin to punctuate sentences using a capital letter and a full stop, question mark or exclamation mark; use capital letters for names of people, places, the days of the week, and the personal pronoun ‘I’
- the grammar appropriate to year 1 (as stated by the NC) and use the grammatical terminology in **English Appendix 2** in discussing their writing.

Composition

Children will be taught to . . .

- write sentences by saying out loud what they are going to write about; compose a sentence orally before writing it; sequence sentences to form short narratives and re-read what they have written to check that it makes sense
- discuss what they have written with the teacher or other pupils and read aloud their writing clearly enough to be heard by their peers and the teacher.

Year 1 Maths

Number and place value

Children will be taught to . . .

- count to and across 100, forwards and backwards, beginning with 0 or 1, or from any given number
- count read and write numbers to 100 in numerals; count in multiples of twos, fives and tens and develop a recognition of patterns in the number system (eg odd and even numbers)
- identify one more and one less
- identify and represent numbers using objects and pictorial representations including a number line, and use the language of: equal to, more than, less than (fewer than), most, least
- read and write numbers from 1 to 20 in numerals and words

Number – addition and subtraction

Children will be taught to . . .

- read write and interpret mathematical statements involving addition (+) and subtraction (-) and equals signs (=) and use related vocabulary (eg take away, difference)
- represent and use number bonds and related subtraction facts within 20
- use mental methods to add and subtract one-digit and two digit numbers to 20 including zero
- solve one step problems that involve addition and subtraction, using concrete objects and pictorial representations, and missing number problems

Number – multiplication and division

Children will be taught to . . .

- solve one step problems involving multiplication and division, by calculating the answer using concrete objects, pictorial representations and arrays with the support of the teacher.
- make connections between arrays, number patterns, and counting in twos, fives and tens.
- use mental methods to solve simple problems explaining methods and reasoning orally (eg doubling/halving)

Year 1 Maths

Number – Fractions

Children will be taught to . . .

- recognise, name and find a half as one of two equal parts of an object, shape or quantity
- recognise, name and find a quarter as one of four equal parts of an object, shape or quantity

Measurement

Children will be taught to . . .

Compare, describe and solve practical problems for:

- Length and height (eg long/short, longer/shorter, tall/short, taller/shorter, double/half)
- Mass/weight (eg heavy/light, heavier than/lighter than)
- Capacity and volume (eg full/empty, more than/less than, half full, quarter)
- Time (eg quicker, slower, earlier, later)

Measure and begin to record the following:

- Lengths and heights
- Mass/weight
- Capacity and volume
- Time (hours, minutes, seconds)
- Suggest suitable standard or uniform non-standard units and measuring equipment to estimate, then measure a length, mass or capacity
- Recognise and know the value of different denominations of coins and notes
- Sequence events in chronological order using language (eg before, after, next, today, yesterday, tomorrow, morning afternoon, evening)
- Recognise language relating to dates, including days of the week, weeks, months, years
- Tell the time to the nearest hour and half past the hour

Geometry

Children will be taught to . . .

- Recognise the name of common 2-D and 3-D shapes
- Use everyday language to describe properties and positions of 2D and 3D shapes
- Describe position, direction and movement, including whole, half, quarter and three quarter turns

Year 1 Science

Work Scientifically

Children will be taught to . . .

Plan

- ask simple questions and recognise that they can be answered in different ways

Children will be taught to . . .

Do

- observe closely, using simple equipment
- perform simple tests
- identify and classify
- gather and record data to help in answering questions

Children will be taught to . . .

Review

- use their observations and ideas to suggest answers to questions

Biology

Plants

Children will be taught . . .

- to identify and name a variety of common wild and garden plants, including deciduous and evergreen trees
- to identify and describe the basic structure of a variety of common flowering plants, including trees
- about animals, including humans
- to identify and name a variety of common animals including fish, amphibians, reptiles, birds and mammals
- to identify and name a variety of common animals that are carnivores, herbivores and omnivores
- to describe and compare the structure of a variety of common animals (fish, amphibians, reptiles, birds and mammals, including pets)
- to identify, name, draw and label the basic parts of the human body and say which part of the body is associated with each sense.

Chemistry

Everyday Materials

Children will be taught to . . .

- distinguish between an object and the material from which it is made
- identify and name a variety of everyday materials, including wood, plastic, glass, metal, water and rock
- describe the simple physical properties of a variety of everyday materials
- compare and group together a variety of everyday materials on the basis of their simple physical properties

Physics

Seasonal Changes

Children will be taught to . . .

- observe changes across the four seasons
- observe and describe weather associated with the seasons and how day length varies

Computing

Children will be taught to . . .

- understand what algorithms are; how they are implemented as programs on digital devices; and that programs execute by following precise and unambiguous instructions
- create and debug simple programs
- use logical reasoning to predict the behaviour of simple programs
- use technology purposefully to create, organise, store, manipulate and retrieve digital content
- recognise common uses of information technology beyond school
- use technology safely and respectfully, keeping personal information private; identify where to go for help and support when they have concerns about content or contact on the internet or other online technologies.

Geography

Children will be taught to . . .

- name and locate the world's seven continents and five oceans
- name, locate and identify characteristics of the four countries and capital cities of the United Kingdom and its surrounding seas
- understand geographical similarities and differences through studying the human and physical geography of a small area of the United Kingdom, and of a small area in a contrasting non-European country
- identify seasonal and daily weather patterns in the United Kingdom and the location of hot and cold areas of the world in relation to the Equator and the North and South Poles
- use basic geographical vocabulary to refer to: key physical features, including: beach, cliff, coast, forest, hill, mountain, sea, ocean, river, soil, valley, vegetation, season and weather
- key human features, including: city, town, village, factory, farm, house, office, port, harbour and shop
- use world maps, atlases and globes to identify the United Kingdom and its countries, as well as the countries, continents and oceans studied at this key stage
- use simple compass directions (North, South, East and West) and locational and directional language [for example, near and far; left and right], to describe the location of features and routes on a map
- use aerial photographs and plan perspectives to recognise landmarks and basic human and physical features; devise a simple map; and use and construct basic symbols in a key
- use simple fieldwork and observational skills to study the geography of their school and its grounds and the key human and physical features of its surrounding environment.

History

Children will be taught . . .

- changes within living memory and where appropriate, these should be used to reveal aspects of change in national life
- events beyond living memory that are significant nationally or globally [for example, the Great Fire of London, the first aeroplane flight or events commemorated through festivals or anniversaries]
- about the lives of significant individuals in the past who have contributed to national and international achievements. Some should be used to compare aspects of life in different periods [for example, Elizabeth I and Queen Victoria, Christopher Columbus and Neil Armstrong, William Caxton and Tim Berners-Lee, Pieter Bruegel the Elder and LS Lowry, Rosa Parks and Emily Davison, Mary Seacole and/or Florence Nightingale and Edith Cavell]
- significant historical events, people and places in their own locality.

Design & Technology

Children will be taught to . . .

- design purposeful, functional, appealing products for themselves and other users based on design criteria
- generate, develop, model and communicate their ideas through talking, drawing, templates, mock-ups and, where appropriate, information and communication technology
- select from and use a range of tools and equipment to perform practical tasks [for example, cutting, shaping, joining and finishing]
- select from and use a wide range of materials and components, including construction materials, textiles and ingredients, according to their characteristics
- explore and evaluate a range of existing products
- evaluate their ideas and products against design criteria
- build structures, exploring how they can be made stronger, stiffer and more stable
- explore and use mechanisms [for example, levers, sliders, wheels and axles], in their products.

Cooking & Nutrition

- use the basic principles of a healthy and varied diet to prepare dishes
- understand where food comes from.

Music

Children will be taught to . . .

- use their voices expressively and creatively by singing songs and speaking chants and rhymes
- play tuned and untuned instruments musically
- listen with concentration and understanding to a range of high-quality live and recorded music
- experiment with, create, select and combine sounds using the inter-related dimensions of music.

RE

Children will be taught to . . .

- recall the outline of religious stories including some aspects of the life of a key religious figure
- recognise features of religious life and practice
- recognise different forms of religious expression.
- identify their own feelings and experiences relevant to their learning about religion.
- identify those things they find puzzling or interesting.
- identify what is of value and concern to themselves or others.

Art

Children will be taught . . .

- to use a range of materials creatively to design and make products
- to use drawing, painting and sculpture to develop and share their ideas, experiences and imagination
- to develop a wide range of art and design techniques in using colour, pattern, texture, line, shape, form and space
- about the work of a range of artists, craft makers and designers, describing the differences and similarities between different practices and disciplines, and making links to their own work.

P.E.

Children will be taught to . . .

- master basic movements including running, jumping, throwing and catching, as well as developing balance, agility and co-ordination, and begin to apply these in a range of activities
- participate in team games, developing simple tactics for attacking and defending
- perform dances using simple movement patterns.

Spoken Language

Children will be taught to . . .

- listen to statements made by adults and classmates and respond appropriately
- ask relevant questions to clarify and expand their knowledge; take opportunities to learn new vocabulary across all subjects; explain what their opinions are and why they hold them, giving some evidence in *an increasingly articulate manner*
- give well-structured descriptions, explanations and narratives for different purposes, including for expressing feelings (to a level appropriate to age)
- maintain attention and participate actively in short collaborative conversations, staying on topic and responding to comments; use spoken language to develop understanding through speculating, hypothesising, imagining and exploring ideas (to a level appropriate to age)
- speak clearly and audibly, with developing fluency and an increasing command of Standard English; participate in class discussions, presentations such as student voice, performances in the studio and to a live audience, role play, improvisations
- attempt to gain the interest of the listener(s) and begin to think about the opinions and views of others; become aware of formal & informal manners of speaking to an age appropriate level.

Reading – Word Reading

Children will be taught to . . .

- apply phonic knowledge and skills as the route to decode words and is automatically decoding a range of words
- read accurately by blending the sounds in words that contain the graphemes taught so far, especially recognising alternative sounds for graphemes
- read accurately words of two or more syllables that contain the same graphemes as above; read words containing common suffixes
- read red words (sight vocabulary), noting unusual correspondences between spelling and sound and where these occur in the word
- read aloud books closely matched to their improving phonic knowledge, sounding out unfamiliar words accurately, automatically and without undue hesitation as well as to re-read these books to build up their fluency and confidence in word reading.

Reading – Comprehension

Engagement in group and class reading

Children will be taught to . . .

- listen to, discuss and expresses views about a wide range of contemporary and classic poetry, stories and non-fiction at a level beyond that at which they can read independently discussing the sequence of events in books and how items of information are related
- become increasingly familiar with and retelling a wider range of stories, fairy stories and traditional tales. To show an understanding that non-fiction books are structured in different ways
- recognise simple recurring literary language in stories and poetry
- discuss and clarify the meanings of words, link new meanings to known vocabulary and discuss their favourite words and phrases
- build up a repertoire of poems learnt by heart, reciting some, with appropriate intonation to make the meaning clear

Independent reading

Children will be taught to . . .

- draw on what they already know or on background information and vocabulary provided by the teacher, checking that the text makes sense to them as they read and correct inaccurate reading
- explain and discuss their understanding of books, poems and other material, both those that they listen to and those that they read for themselves; make inferences on the basis of what is being said and done
- answer and ask questions; predict what might happen on the basis of what has been read so far

Writing

Spelling

Children will be taught to . . .

- spell words containing each of the 40+ phonemes already taught and common exception words, such as the days of the week
- name the letters of the alphabet in order and use letter names to distinguish between alternative spellings of the same sound
- add prefixes and suffixes using the spelling rule for adding –s or –es as the plural marker for nouns and the third person singular marker for verbs; use the prefix *un-* and use –ing, –ed, –er and –est where no change is needed in the spelling of root words [for example, helping, helped, helper, eating, quicker, quickest]
- apply simple spelling rules and guidance, as suggested by ReadWrite Inc.
- write from memory simple sentences dictated by the teacher that include words using the GPCs and common exception words taught so far.

Handwriting

Children will be taught to . . .

- sit correctly at a table, holding a pencil comfortably and correctly; begin to form lower-case letters in the correct direction, starting and finishing in the right place; form capital letters and form digits 0-9
- understand which letters belong to which handwriting 'families' (i.e. letters that are formed in similar ways) and to practise these.

Grammar

Children will be taught to . . .

- leave spaces between words; joins words and joins clauses using, and beginning to punctuate sentences using, a capital letter and a full stop, question mark or exclamation mark; use a capital letter for names of people, places, the days of the week, and the personal pronoun 'I'
- learn the grammar appropriate to year 1 (as stated by the NC) and use the grammatical terminology in English Appendix 2 in discussing their writing.

Composition

Children will be taught to . . .

- write sentences by saying out loud what they are going to write about; compose a sentence orally before writing it; sequence sentences to form short narratives and re-read what they have written to check that it makes sense
- discuss what they have written with the teacher or other pupils and read aloud their writing clearly enough to be heard by their peers and the teacher.

Number and place value

Children will be taught to . . .

- count in steps of 2, 3, and 5 from 0, and in tens from any number, forward and backward
- recognise the place value of each digit in a two-digit number (tens, ones)
- Identify, represent and estimate numbers using different representations, including the number line
- compare and order numbers from 0 up to 100; use <, > and = signs
- read and write numbers to at least 100 in numerals and in words
- describe and extend simple number sequences including odd and even numbers and counting on and back in steps of 1s, 2s, 3s, 5s, 10s and from any 2-digit number

Number – addition and subtraction

Children will be taught to . . .

- solve problems with addition and subtraction:
- using concrete objects and pictorial representations, including those involving numbers, quantities and measures
- applying their increasing knowledge of mental and written methods
- recall and use addition and subtraction facts to 20 fluently, and derive and use related facts up to 100
- add and subtract numbers using concrete objects, pictorial representations, and mentally, including:
- a two-digit number and ones
- a two-digit number and tens
- two two-digit numbers
- adding three one-digit numbers
- show that addition of two numbers can be done in any order (commutative) and subtraction of one number from another cannot
- recognise and use the inverse relationship between addition and subtraction and use this to check calculations and solve missing number problems.

Number – multiplication and division

Children will be taught to . . .

- recall and use multiplication and division facts for the 2, 5 and 10 multiplication tables, including recognising odd and even numbers
- understand the operation of multiplication as repeated addition or as describing an array
- calculate mathematical statements for multiplication and division within the multiplication tables and write them using the multiplication (×), division (÷) and equals (=) signs
- show that multiplication of two numbers can be done in any order (commutative) and division of one number by another cannot
- know and use halving as the inverse of doubling
- solve problems involving multiplication and division, using materials, arrays, repeated addition, mental methods, and multiplication and division facts, including problems in contexts.

Number – fractions

Children will be taught to . . .

- recognise, find, name and write fractions $\frac{1}{3}$, $\frac{1}{4}$, $\frac{2}{4}$ and $\frac{3}{4}$ of a length, shape, set of objects or quantity
- write simple fractions for example, $\frac{1}{2}$ of 6 = 3 and recognise the equivalence of $\frac{2}{4}$ and $\frac{1}{2}$.

Measurement

Children will be taught to . . .

- choose and use appropriate standard units to estimate and measure length/height in any direction (m/cm); mass (kg/g); temperature (°C); capacity (litres/ml) to the nearest appropriate unit, using rulers, scales, thermometers and measuring vessels
- read a simple scale to the nearest levelled division, including a ruler to draw and measure the lines to the nearest centimetre
- compare and order lengths, mass, volume/capacity and record the results using $>$, $<$ and $=$
- recognise and use symbols for pounds (£) and pence (p); combine amounts to make a particular value
- find different combinations of coins that equal the same amounts of money
- solve simple problems in a practical context involving addition and subtraction of money of the same unit, including giving change
- compare and sequence intervals of time
- tell and write the time to five minutes, including quarter past/to the hour and draw the hands on a clock face to show these times
- know the number of minutes in an hour and the number of hours in a day.

Geometry – Properties of shapes

Children will be taught to . . .

- identify and describe the properties of 2-D shapes, including the number of sides and line symmetry in a vertical line
- identify and describe the properties of 3-D shapes, including the number of edges, vertices and faces
- identify 2-D shapes on the surface of 3-D shapes [for example, a circle on a cylinder and a triangle on a pyramid]
- compare and sort common 2-D and 3-D shapes and everyday objects.

Geometry – position and direction

Children will be taught to . . .

- order and arrange combinations of mathematical objects in patterns and sequences
- use mathematical vocabulary to describe position, direction and movement, including movement in a straight line and distinguishing between rotation as a turn and in terms of right angles for quarter, half and three-quarter turns (clockwise and anti-clockwise).

Geometry – Statistics

Children will be taught to . . .

- interpret and construct simple pictograms, tally charts, block diagrams and simple tables
- ask and answer simple questions by counting the number of objects in each category and sorting the categories by quantity
- ask and answer questions about totalling and comparing categorical data.

Year 2 Science

Work Scientifically

Children will be taught to . . .

Plan

- ask simple questions and recognise that they can be answered in different ways

Do

- observe closely, using simple equipment
- perform simple tests
- identify and classify
- gather and record data to help in answering questions

Review

- use their observations and ideas to suggest answers to questions

Biology

Plants

Children will be taught to . . .

- observe and describe how seeds and bulbs grow into mature plants
- find out and describe how plants need water, light and a suitable temperature to grow and stay healthy
- find out about animals, including humans
- notice that animals, including humans, have offspring which grow into adults
- find out about and describe the basic needs of animals, including humans, for survival (water, food, air)
- describe the importance for humans of exercise, eating the right amounts of different types of food and hygiene

Living things and their habitats

Children will be taught to . . .

- explore and compare the differences between things that are living, dead, and things that have never been alive
- identify that most living things live in habitats to which they are suited
- describe how different habitats provide for the basic needs of different kinds of animals and plants and how they depend on each other
- identify and name a variety of plants and animals in their habitats, including micro-habitats
- describe how animals obtain their food from plants and other animals, using the idea of a simple food chain, and identify and name different sources of food

Chemistry

Uses of everyday materials

Children will be taught to . . .

- identify and compare the suitability of a variety of everyday materials, including wood, metal, plastic, glass, brick, rock, paper and cardboard for particular uses
- find out how the shapes of solid objects made from some materials can be changed by squashing, bending, twisting and stretching

Physics

Forces

Children will be taught to . . .

- describe the changes in light, sound or movements, which result from actions such as switching on a simple electrical circuit, or pushing and pulling
- build a simple series circuit and identify whether or not a lamp will light in a simple series circuit, based on whether or not the lamp is part of a complete loop with a battery
- compare the movement of different objects in terms of speed or direction

Computing

Children will be taught to...

- understand what algorithms are; how they are implemented as programs on digital devices; and that programs execute by following precise and unambiguous instructions
- create and debug simple programs
- use logical reasoning to predict the behaviour of simple programs
- use technology purposefully to create, organise, store, manipulate and retrieve digital content
- recognise common uses of information technology beyond school
- use technology safely and respectfully, keeping personal information private; identify where to go for help and support when they have concerns about content or contact on the internet or other online technologies.

Design & Technology

Children will be taught to . . .

- design purposeful, functional, appealing products for themselves and other users based on design criteria
- generate, develop, model and communicate their ideas through talking, drawing, templates, mock-ups and, where appropriate, information and communication technology
- select from and use a range of tools and equipment to perform practical tasks [for example, cutting, shaping, joining and finishing]
- select from and use a wide range of materials and components, including construction materials, textiles and ingredients, according to their characteristics
- explore and evaluate a range of existing products
- evaluate their ideas and products against design criteria
- build structures, exploring how they can be made stronger, stiffer and more stable
- explore and use mechanisms [for example, levers, sliders, wheels and axles], in their products.
- use the basic principles of a healthy and varied diet to prepare dishes
- understand where food comes from.

Geography

Children will be taught to . . .

- name and locate the world's seven continents and five oceans
- name, locate and identify characteristics of the four countries and capital cities of the United Kingdom and its surrounding seas
- understand geographical similarities and differences through studying the human and physical geography of a small area of the United Kingdom, and of a small area in a contrasting non-European country
- identify seasonal and daily weather patterns in the United Kingdom and the location of hot and cold areas of the world in relation to the Equator and the North and South Poles
- use basic geographical vocabulary to refer to:
 - key physical features, including: beach, cliff, coast, forest, hill, mountain, sea, ocean, river, soil, valley, vegetation, season and weather
 - key human features, including: city, town, village, factory, farm, house, office, port, harbour and shop
- use world maps, atlases and globes to identify the United Kingdom and its countries, as well as the countries, continents and oceans studied at this key stage
- use simple compass directions (North, South, East and West) and locational and directional language [for example, near and far; left and right], to describe the location of features and routes on a map
- use aerial photographs and plan perspectives to recognise landmarks and basic human and physical features; devise a simple map; and use and construct basic symbols in a key
- use simple fieldwork and observational skills to study the geography of their school and its grounds and the key human and physical features of its surrounding environment.

History

Children will be taught . . .

- changes within living memory. Where appropriate, these should be used to reveal aspects of change in national life
- events beyond living memory that are significant nationally or globally [for example, the Great Fire of London, the first aeroplane flight or events commemorated through festivals or anniversaries]
- the lives of significant individuals in the past who have contributed to national and international achievements. Some should be used to compare aspects of life in different periods [for example, Elizabeth I and Queen Victoria, Christopher Columbus and Neil Armstrong, William Caxton and Tim Berners-Lee, Pieter Bruegel the Elder and LS Lowry, Rosa Parks and Emily Davison, Mary Seacole and/or Florence Nightingale and Edith Cavell]
- significant historical events, people and places in their own locality.

RE

Children will be taught to . . .

- retell religious stories and identify some religious beliefs and teachings.
- identify selected features of religious life and practice.
- suggest meanings in religious symbols and stories.
- respond sensitively to what they learn about religions and relate this to their own and others experiences.
- identify some experiences that cause people to wonder and realise some questions are difficult to answer.
- respond sensitively to the feelings, values and commitments of others.

P.E.

Children will be taught to . . .

- master basic movements including running, jumping, throwing and catching, as well as developing balance, agility and co-ordination, and begin to apply these in a range of activities
- participate in team games, developing simple tactics for attacking and defending
- perform dances using simple movement patterns.

Music

Children will be taught to . . .

- use their voices expressively and creatively by singing songs and speaking chants and rhymes
- play tuned and untuned instruments musically
- listen with concentration and understanding to a range of high-quality live and recorded music
- experiment with, create, select and combine sounds using the inter-related dimensions of music.

Art

Children will be taught to . . .

- to use a range of materials creatively to design and make products
- to use drawing, painting and sculpture to develop and share their ideas, experiences and imagination
- to develop a wide range of art and design techniques in using colour, pattern, texture, line, shape, form and space
- study the work of a range of artists, craft makers and designers, describing the differences and similarities between different practices and disciplines, and making links to their own work.

Year 3 English

Spoken Language

Children will be taught to . . .

- ask relevant questions to extend their understanding and knowledge; take opportunities to learn new vocabulary across all subjects
- explain what their opinions are and why they hold them, giving evidence in *an increasingly articulate manner*; give well-structured descriptions, explanations and narratives for different purposes, including for expressing feelings (to a level appropriate to age)
- maintain attention and participate actively in collaborative conversations such as working together on a curriculum activity, staying on topic and initiating and responding to comments; use spoken language to develop understanding through speculating, hypothesising, imagining and exploring ideas (to a level appropriate to age)
- speak clearly and audibly and fluently with an increasing command of Standard English; participates in discussions, presentations, performances, role play, improvisations and debates
- gain, maintain and monitor the interest of the listener(s); consider and evaluates different viewpoints, attending to and building on the contributions of others; select and use appropriate registers for effective communication.

Reading – Word Reading

Children will be taught to . . .

- apply their knowledge of root words, prefixes and suffixes (etymology and morphology) to read aloud and to understand the meaning of new words they meet
- read exception words, noting the unusual correspondences between spelling and sound, and where these occur in the word.

Reading – Comprehension

Engagement in group and class reading

Children will be taught to . . .

- listen and discuss a wide range of fiction, poetry, plays, non-fiction and reference books or textbooks
- read books that are structured in different ways and reading for a range of purposes
- use dictionaries to check the meaning of words that they have read
- increase their familiarity with a wide range of books, including fairy stories, myths and legends, and retells some of these orally
- identify themes and conventions in a wide range of books
- prepare poems and play scripts to read aloud and to perform, showing understanding through intonation, tone, volume and action
- discuss words and phrases that capture the reader's interest and imagination
- recognise some different forms of poetry [for example, free verse, narrative poetry]

Independent reading

Children will be taught to . . .

- check that the text makes sense to them, discuss their understanding and explains the meaning of words in context; ask questions to improve their understanding of a text
- draw inferences such as inferring characters' feelings, thoughts and motives from their actions, and justify inferences with evidence; predict what might happen from details stated and implied
- identify main ideas drawn from more than one paragraph and summarises these
- identify how language, structure, and presentation contribute to meaning

Writing

Spelling

Children will be taught to . . .

- use prefixes and suffixes and understand how to add them (see English Appendix 1)
- spell further homophones
- spell words that are often misspelt (English Appendix 1)
- place the possessive apostrophe accurately in words with regular plurals [for example, girls', boys'] and in words with irregular plurals [for example, children's]
- use the first two or three letters of a word to check its spelling in a dictionary
- write from memory simple sentences, dictated by the teacher, that include words and punctuation taught so far.

Handwriting

Children will be taught to . . .

- use the diagonal and horizontal strokes that are needed to join letters and understand which letters, when adjacent to one another, are best left unjoined
- ensure that the downstrokes of letters are parallel and equidistant; that lines of writing are spaced sufficiently so that the ascenders and descenders of letters do not touch.

Grammar

Children will be taught to . . .

- extend sentences with more than one clause by using a wide range of conjunctions, including when, if, because, although
- use the present perfect form of verbs in contrast to the past tense; chooses nouns or pronouns appropriately for clarity and cohesion and to avoid repetition
- use conjunctions, adverbs and prepositions to express time and cause
- use fronted adverbials with commas
- use the possessive apostrophe with plural nouns; use and punctuate direct speech
- use the grammatical terminology in English Appendix 2 accurately and appropriately when discussing their writing and reading.

Composition

Children will be taught to . . .

- plan their writing by discussing writing similar to that which they are planning to write in order to understand and learn from its structure, vocabulary and grammar; discuss and record ideas
- compose sentences orally (including dialogue), progressively building a varied and rich vocabulary using an increasing range of sentence structures
- organise paragraphs around a theme; in non-narrative material, using simple organisational devices [for example, headings and sub-headings]
- create settings, characters and a plot (during narrative writing)
- evaluate and edit by assessing the effectiveness of their own and others' writing by suggesting improvements; propose changes to grammar and vocabulary to improve consistency, including the accurate use of pronouns in sentences; proof-read for spelling and punctuation errors
- read aloud their own writing, to a group or the whole class, using appropriate intonation and controlling the tone and volume so that the meaning is clear.

Year 3 Maths

Number – Number and place value

Children will be taught to . . .

- count from 0 in multiples of 4, 8, 50 and 100; find 10 or 100 more or less than a given number
- recognise the place value of each digit in a four-digit number (thousands, hundreds, tens, ones)
- compare and order numbers up to 1000
- identify, represent and estimate numbers using different representations
- read and write numbers up to 1000 in numerals and in words
- solve number problems and practical problems involving these ideas.

Number – addition and subtraction

Children will be taught to . . .

- add and subtract mentally a 'near multiple of 10' to or from a 2 digit number
- add and subtract numbers mentally, including:
 - A three-digit number and ones
 - A three-digit number and tens
 - A three-digit number and hundreds
- add and subtract numbers with up to three digits, using formal written methods of column addition and subtraction
- know by heart all addition and subtraction facts to 20
- estimate the answer to a calculation and use inverse operations to check answers
- solve problems, including missing number problems, using number facts, place value, and more complex addition and subtraction.

Number – multiplication and division

Children will be taught to . . .

- recall and use multiplication and division facts for the 3, 4 and 8 multiplication tables (including know by heart 2, 5, 10 multiplication facts)
- write and calculate mathematical statements for multiplication and division using the multiplication tables that they know, including for two-digit numbers times one-digit numbers, using mental and progressing to formal written methods
- solve problems, including missing number problems, involving multiplication and division, including positive integer scaling problems and correspondence problems in which objects are connected to objects.
- understand division and to recognise that division is the inverse of multiplication

Number – Fractions

Children will be taught to . . .

- count up and down in tenths; recognise that tenths arise from dividing an object into 10 equal parts and in dividing one-digit numbers or quantities by 10
- recognise, find and write fractions of a discrete set of objects: unit fractions and non-unit fractions with small denominators
- recognise and use fractions as numbers: unit fractions and non-unit fractions with small denominators ($\frac{1}{2}$, $\frac{1}{3}$, $\frac{1}{4}$, $\frac{1}{5}$, $\frac{1}{10}$)
- recognise and show, using diagrams, equivalent fractions with small denominators
- add and subtract fractions with the same denominator within one whole [for example, $\frac{1}{4} + \frac{2}{4} = \frac{3}{4}$]
- compare and order unit fractions, and fractions with the same denominators
- solve problems that involve all of the above.

Measurement

Children will be taught to . . .

- measure, compare, add and subtract: lengths (m/cm/mm); mass (kg/g); volume/capacity (l/ml)
- measure the perimeter of simple 2-D shapes
- add and subtract amounts of money to give change, using both £ and p in practical contexts
- tell and write the time from an analogue clock, including using Roman numerals from I to XII, and 12-hour and 24-hour clocks
- estimate and read time with increasing accuracy to the nearest minute; record and compare time in terms of seconds, minutes and hours; use vocabulary such as o'clock, a.m./p.m., morning, afternoon, noon and midnight
- know the number of seconds in a minute and the number of days in each month, year and leap year
- compare durations of events [for example to calculate the time taken by particular events or tasks].

Geometry – Properties of shapes

Children will be taught to . . .

- draw 2-D shapes and make 3-D shapes using modelling materials; recognise 3-D shapes in different orientations and describe them
- identify lines of symmetry in simple shapes and recognise shapes with no lines of symmetry
- recognise angles as a property of shape or a description of a turn
- identify right angles, recognise that two right angles make a half-turn, three make three quarters of a turn and four a complete turn; identify whether angles are greater than or less than a right angle
- identify horizontal and vertical lines and pairs of perpendicular and parallel lines.

Geometry – Statistics

Children will be taught to . . .

- gather, interpret and present data using bar charts, pictograms and tables
- solve one-step and two-step questions [for example, 'How many more?' and 'How many fewer?'] using information presented in scaled bar charts and pictograms and tables.

Work Scientifically

Plan

Children will be taught to . . .

- ask relevant questions and use different types of scientific enquiries to answer them
- set up simple practical enquiries, comparative and fair tests

Do

Children will be taught to . . .

- make systematic and careful observations and where appropriate, taking accurate measurements using standard units, using a range of equipment, including thermometers and data loggers
- gather, record, classify and present data in a variety of ways to help in answering questions
- record findings using simple scientific language, drawings, labelled diagrams, keys, bar charts, and tables

Review

Children will be taught to . . .

- report on findings from enquiries, including oral and written explanations, displays or presentations of results and conclusions
- identify differences, similarities or changes related to simple scientific ideas and processes
- use straightforward scientific evidence to answer questions or to support their findings
- use results to draw simple conclusions, make predictions for new values, suggest improvements and raise further questions

Biology

Plants

Children will be taught to . . .

- identify and describe the functions of different parts of flowering plants: roots, stem/trunk, leaves and flowers
- explore the requirements of plants for life and growth (air, light, water, nutrients from soil and room to grow) and how they vary from plant to plant
- investigate the way in which water is transported within plants
- explore the part that flowers play in the life cycle of flowering plants, including pollination, seed formation and seed dispersal

Animals, including humans

Children will be taught to . . .

- identify that animals, including humans, need the right types of and amount of nutrition, and that they cannot make their own food; they get nutrition from what they eat
- identify that humans and some other animals have skeletons and muscles for support, protection and movement

Chemistry

Rocks

Children will be taught to . . .

- compare and group together different kinds of rocks on the basis of their appearance and simple physical properties
- describe in simple terms how fossils are formed when things that have lived are trapped within rock
- recognise that soils are made from rocks and organic matter

Physics

Light

Children will be taught to . . .

- recognise that they need light in order to see things and that dark is the absence of light
- notice that light is reflected from surfaces
- recognise that light from the sun can be dangerous and that there are ways to protect their eyes
- recognise that shadows are formed when the light from a light source is blocked by a solid object
- find patterns in the way that the size of shadows change

Forces and Magnets

Children will be taught to . . .

- compare how things move on different surfaces
- notice that some forces need contact between two objects but magnetic forces can act at a distance
- observe how magnets attract or repel each other and attract some materials and not others.
- compare and group together a variety of everyday materials on the basis of whether they are attracted to a magnet, and identify some magnetic materials
- describe magnets as having two poles
- predict whether two magnets will attract or repel each other, depending on which poles are facing.

Computing

Children will be taught to...

- design, write and debug programs that accomplish specific goals, including controlling or simulating physical systems; solve problems by decomposing them into smaller parts
- use sequence, selection, and repetition in programs; work with variables and various forms of input and output
- use logical reasoning to explain how some simple algorithms work and to detect and correct errors in algorithms and programs
- understand computer networks including the internet; how they can provide multiple services, such as the world wide web; and the opportunities they offer for communication and collaboration
- use search technologies effectively, appreciate how results are selected and ranked, and be discerning in evaluating digital content
- select, use and combine a variety of software (including internet services) on a range of digital devices to design and create a range of programs, systems and content that accomplish given goals, including collecting, analysing, evaluating and presenting data and information
- use technology safely, respectfully and responsibly; recognise acceptable/unacceptable behaviour; identify a range of ways to report concerns about content and contact.

Geography

Children will be taught to . . .

- locate the world's countries, using maps to focus on Europe (including the location of Russia) and North and South America, concentrating on their environmental regions, key physical and human characteristics, countries, and major cities
- name and locate counties and cities of the United Kingdom, geographical regions and their identifying human and physical characteristics, key topographical features (including hills, mountains, coasts and rivers), and land-use patterns; and understand how some of these aspects have changed over time
- identify the position and significance of latitude, longitude, Equator, Northern Hemisphere, Southern Hemisphere, the Tropics of Cancer and Capricorn, Arctic and Antarctic Circle, the Prime/Greenwich Meridian and time zones (including day and night)
- understand geographical similarities and differences through the study of human and physical geography of a region of the United Kingdom, a region in a European country, and a region within North or South America
- describe and understand key aspects of:
 - physical geography, including: climate zones, biomes and vegetation belts, rivers, mountains, volcanoes and earthquakes, and the water cycle
 - human geography, including: types of settlement and land use, economic activity including trade links, and the distribution of natural resources including energy, food, minerals and water
- use maps, atlases, globes and digital/computer mapping to locate countries and describe features studied
- use the eight points of a compass, four and six-figure grid references, symbols and key (including the use of Ordnance Survey maps) to build their knowledge of the United Kingdom and the wider world
- use fieldwork to observe, measure, record and present the human and physical features in the local area using a range of methods, including sketch maps, plans and graphs, and digital technologies.

RE

Children will be taught to . . .

- pupils use a developing religious vocabulary to describe some key features of religions, recognising similarities and differences
- make links between beliefs and sources, including religious stories and sacred texts
- begin to identify the impact religion has on believers' lives.
- describe some forms of religious expression
- identify what influences them, making links between aspects of their own and others' experiences

Music

Children will be taught to . . .

- play and perform in solo and ensemble contexts, using their voices and playing musical instruments with increasing accuracy, fluency, control and expression
- improvise and compose music for a range of purposes using the inter-related dimensions of music
- listen with attention to detail and recall sounds with increasing aural memory
- use and understand staff and other musical notations
- appreciate and understand a wide range of high-quality live and recorded music drawn from different traditions and from great composers and musicians
- develop an understanding of the history of music.

P.E.

Children will be taught to . . .

- use running, jumping, throwing and catching in isolation and in combination
- play competitive games, modified where appropriate [for example, badminton, basketball, cricket, football, hockey, netball, rounders and tennis], and apply basic principles suitable for attacking and defending
- develop flexibility, strength, technique, control and balance [for example, through athletics and gymnastics]
- perform dances using a range of movement patterns
- take part in outdoor and adventurous activity challenges both individually and within a team
- compare their performances with previous ones and demonstrate improvement to achieve their personal best.

Design & Technology

Children will be taught to . . .

- use research and develop design criteria to inform the design of innovative, functional, appealing products that are fit for purpose, aimed at particular individuals or groups
- generate, develop, model and communicate their ideas through discussion, annotated sketches, cross-sectional and exploded diagrams, prototypes, pattern pieces and computer-aided design
- select from and use a wider range of tools and equipment to perform practical tasks [for example, cutting, shaping, joining and finishing], accurately
- select from and use a wider range of materials and components, including construction materials, textiles and ingredients, according to their functional properties and aesthetic qualities
- investigate and analyse a range of existing products
- evaluate their ideas and products against their own design criteria and consider the views of others to improve their work
- understand how key events and individuals in design and technology have helped shape the world
- apply their understanding of how to strengthen, stiffen and reinforce more complex structures
- understand and use mechanical systems in their products [for example, gears, pulleys, cams, levers and linkages]
- understand and use electrical systems in their products [for example, series circuits incorporating switches, bulbs, buzzers and motors]
- apply their understanding of computing to program, monitor and control their products.

Cooking and nutrition

- understand and apply the principles of a healthy and varied diet
- prepare and cook a variety of predominantly savoury dishes using a range of cooking techniques
- understand seasonality, and know where and how a variety of ingredients are grown, reared, caught and processed.

History

Children will be taught . . .

- changes in Britain from the Stone Age to the Iron Age
- the Roman Empire and its impact on Britain
- Britain's settlement by Anglo-Saxons and Scots
- the Viking and Anglo-Saxon struggle for the Kingdom of England to the time of Edward the Confessor
- a local history study
- a study of an aspect or theme in British history that extends pupils' chronological knowledge beyond 1066
- the achievements of the earliest civilizations – an overview of where and when the first civilizations appeared and a depth study of one of the following: Ancient Sumer; The Indus Valley; Ancient Egypt; The Shang Dynasty of Ancient China
- Ancient Greece – a study of Greek life and achievements and their influence on the western world
- a non-European society that provides contrasts with British history – one study chosen from: early Islamic civilization, including a study of Baghdad c. AD 900; Mayan civilization c. AD 900; Benin (West Africa) c. AD 900-1300.

MFL

Children will be taught to:

- listen attentively to spoken language and show understanding by joining in and responding
- explore the patterns and sounds of language through songs and rhymes and link the spelling, sound and meaning of words
- engage in conversations; ask and answer questions; express opinions and respond to those of others; seek clarification and help*
- speak in sentences, using familiar vocabulary, phrases and basic language structures
- develop accurate pronunciation and intonation so that others understand when they are reading aloud or using familiar words and phrases*
- present ideas and information orally to a range of audiences*
- read carefully and show understanding of words, phrases and simple writing
- appreciate stories, songs, poems and rhymes in the language
- broaden their vocabulary and develop their ability to understand new words that are introduced into familiar written material, including through using a dictionary
- write phrases from memory, and adapt these to create new sentences, to express ideas clearly
- describe people, places, things and actions orally* and in writing
- understand basic grammar appropriate to the language being studied, including (where relevant): feminine, masculine and neuter forms and the conjugation of high-frequency verbs; key features and patterns of the language; how to apply these, for instance, to build sentences; and how these differ from or are similar to English.

Art

Children will be taught to . . .

- create sketch books to record their observations and use them to review and revisit ideas
- improve their mastery of art and design techniques, including drawing, painting and sculpture with a range of materials [for example, pencil, charcoal, paint, clay]
- find about great artists, architects and designers in history.

Spoken Language

Children will be taught to . . .

- ask relevant questions to extend their understanding and knowledge; take opportunities to learn new vocabulary across all subjects
- explain what their opinions are and why they hold them, giving evidence in *an increasingly articulate manner*; give well-structured descriptions, explanations and narratives for different purposes, including for expressing feelings (to a level appropriate to age)
- maintain attention and participate actively in collaborative conversations such as working together on a curriculum activity, staying on topic and initiating and responding to comments; use spoken language to develop understanding through speculating, hypothesising, imagining and exploring ideas (to a level appropriate to age)
- speak clearly and audibly and fluently with an increasing command of Standard English; participate in discussions, presentations, performances, role play, improvisations and debates
- gain, maintain and monitor the interest of the listener(s); consider and evaluate different viewpoints, attending to and building on the contributions of others; select and use appropriate registers for effective communication.

Year 4 English

Reading – Word Reading

Children will be taught to . . .

- apply their knowledge of root words, prefixes and suffixes (etymology and morphology) to read aloud and to understand the meaning of new words they meet
- read exception words, noting the unusual correspondences between spelling and sound, and where these occur in the word.

Reading – Comprehension

Engagement in group and class reading

Children will be taught to . . .

- listen to and discuss a wide range of fiction, poetry, plays, non-fiction and reference books or textbooks
- read books that are structured in different ways and reading for a range of purposes
- use dictionaries to check the meaning of words that they have read
- is beginning to increase their familiarity with a wide range of books, including fairy stories, myths and legends, and retells some of these orally
- identify themes and conventions in a wide range of books
- prepare poems and play scripts to read aloud and to perform, showing understanding through intonation, tone, volume and action
- discuss words and phrases that capture the reader's interest and imagination
- recognise some different forms of poetry [for example, free verse, narrative poetry]

Independent reading

Children will be taught to . . .

- check that the text makes sense to them, discuss their understanding and explain the meaning of words in context; ask questions to improve their understanding of a text
- draws inferences such as inferring characters' feelings, thoughts and motives from their actions, and justifies inferences with evidence; predicts what might happen from details stated and implied
- identify main ideas drawn from more than one paragraph and summarises these
- identify how language, structure, and presentation contribute to meaning

Year 4 English

Writing

Spelling

Children will be taught to . . .

- Use prefixes and suffixes and understand how to add them (see English Appendix 1)
- spells further homophones
- spells words that are often misspelt (English Appendix 1)
- places the possessive apostrophe accurately in words with regular plurals [for example, girls', boys'] and in words with irregular plurals [for example, children's]
- use the first two or three letters of a word to check its spelling in a dictionary
- write from memory simple sentences, dictated by the teacher, that include words and punctuation taught so far.

Handwriting

Children will be taught to . . .

- use the diagonal and horizontal strokes that are needed to join letters and understand which letters, when adjacent to one another, are best left unjoined
- ensure that the downstrokes of letters are parallel and equidistant; that lines of writing are spaced sufficiently so that the ascenders and descenders of letters do not touch.

Grammar

Children will be taught to . . .

- extend sentences with more than one clause by using a wide range of conjunctions, including when, if, because, although
- use the present perfect form of verbs in contrast to the past tense; choose nouns or pronouns appropriately for clarity and cohesion and to avoid repetition
- use conjunctions, adverbs and prepositions to express time and cause
- use fronted adverbials with commas
- use the possessive apostrophe with plural nouns; use and punctuates direct speech
- use the grammatical terminology in English Appendix 2 accurately and appropriately when discussing their writing and reading.

Composition

Children will be taught to . . .

- plan their writing by discussing writing similar to that which they are planning to write in order to understand and learn from its structure, vocabulary and grammar; discuss and record ideas
- compose sentences orally (including dialogue), progressively building a varied and rich vocabulary using an increasing range of sentence structures
- organise paragraphs around a theme; in non-narrative material, use simple organisational devices [for example, headings and sub-headings]
- create settings, characters and a plot (during narrative writing)
- evaluate and edit by assessing the effectiveness of their own and others' writing by suggesting improvements; propose changes to grammar and vocabulary to improve consistency, including the accurate use of pronouns in sentences; proof-read for spelling and punctuation errors
- read aloud their own writing, to a group or the whole class, use appropriate intonation and controlling the tone and volume so that the meaning is clear.

Year 4 Maths

Number and Place Value

Children will be taught to . . .

- count in multiples of 6, 7, 9, 25 and 1000
- find 1000 more or less than a given number
- count backwards through zero to include negative numbers and decimals
- recognise the place value of each digit in a four-digit number (thousands, hundreds, tens, and ones)
- order and compare numbers beyond 1000
- identify, represent and estimate numbers using different representations
- round any number to the nearest 10, 100 or 1000
- solve number and practical problems that involve all of the above and with increasingly large positive numbers
- read Roman numerals to 100 (I to C) and know that over time, the numeral system changed to include the concept of zero and place value.

Number – addition and subtraction

Children will be taught to . . .

- add and subtract numbers with up to 4 digits using the formal written methods of column addition and subtraction where appropriate
- estimate and use inverse operations to check answers to a calculation
- use mental recall of addition and subtraction facts to 20 (although I think we should change this to 100)
- solve addition and subtraction two-step problems in contexts, deciding which operations and methods to use and why.

Number – multiplication and division

Children will be taught to . . .

- recall multiplication and division facts for multiplication tables up to 12×12
- use place value, known and derived facts to multiply and divide mentally, including: multiplying by 0 and 1; dividing by 1; multiplying together three numbers
- recognise and use factor pairs and commutativity in mental calculations
- multiply two-digit and three-digit numbers by a one-digit number using formal written layout
- solve problems involving multiplying and adding, including using the distributive law to multiply two digit numbers by one digit, integer scaling problems and harder correspondence problems such as n objects are connected to m objects.

Number – fractions (including decimals)

Children will be taught to . . .

- recognise and show, using diagrams, families of common equivalent fractions including that several parts make a whole
- count up and down in hundredths; recognise that hundredths arise when dividing an object by one hundred and dividing tenths by ten.
- solve problems involving increasingly harder fractions to calculate quantities, and fractions to divide quantities, including non-unit fractions where the answer is a whole number
- add and subtract fractions with the same denominator and recognise mixed numbers (fractions)
- recognise and write decimal equivalents of any number of tenths or hundredths
- recognise and write decimal equivalents to $\frac{1}{4}$, $\frac{1}{2}$, $\frac{3}{4}$
- find the effect of dividing a one- or two-digit number by 10 and 100, identifying the value of the digits in the answer as ones, tenths and hundredths
- round decimals with one decimal place to the nearest whole number
- compare numbers with the same number of decimal places up to two decimal places
- solve simple measure and money problems involving fractions and decimals to two decimal places.

Year 4 Maths

Measurement

Children will be taught to:

- convert between different units of measure [for example, kilometre to metre; hour to minute]
- measure and calculate the perimeter of a rectilinear figure (including squares) in centimetres and metres
- begin (although perhaps should say continue to.... to understand standard and non-standard metric units of length, capacity and mass
- find the area of rectilinear shapes by counting squares
- estimate, compare and calculate different measures, including money in pounds and pence read, write and convert time between analogue and digital 12- and 24-hour clocks
- solve problems involving converting from hours to minutes; minutes to seconds; years to months; weeks to days.

Geometry – Properties of shapes

Children will be taught to . . .

- compare and classify regular and irregular geometric shapes, including quadrilaterals and triangles, based on their properties and sizes
- identify acute and obtuse angles and compare and order angles up to two right angles by size
- identify lines of symmetry in 2-D shapes presented in different orientations
- complete a simple symmetric figure with respect to a specific line of symmetry.

Geometry – Position and direction

Children will be taught to . . .

- describe positions on a 2-D grid as coordinates in the first quadrant
- describe movements between positions as translations of a given unit to the left/right and up/down
- plot specified points and draw sides to complete a given polygon.

Geometry – Statistics

Children will be taught to . . .

- interpret and present discrete and continuous data using appropriate graphical methods, including bar charts and time graphs.
- solve comparison, sum and difference problems using information presented in bar charts, pictograms, tables and other graphs.

Work Scientifically

Plan

Children will be taught to . . .

- ask relevant questions and use different types of scientific enquiries to answer them
- set up simple practical enquiries, comparative and fair tests

Do

Children will be taught to . . .

- make systematic and careful observations and where appropriate, taking accurate measurements using standard units, using a range of equipment, including thermometers and data loggers
- gather, record, classify and present data in a variety of ways to help in answering questions
- record findings using simple scientific language, drawings, labelled diagrams, keys, bar charts, and tables

Review

Children will be taught to . . .

- report on findings from enquiries, including oral and written explanations, displays or presentations of results and conclusions
- identify differences, similarities or changes related to simple scientific ideas and processes
- use straightforward scientific evidence to answer questions or to support their findings
- use results to draw simple conclusions, make predictions for new values, suggest improvements and raise further questions
-

Year 4 Science

Biology

Animals, including humans

Children will be taught to . . .

- describe the simple functions of the basic parts of the digestive system in humans
- identify the different types of teeth in humans and their simple functions
- construct and interpret a variety of food chains, identifying producers, predators and prey

Living things and their habitats

Children will be taught to . . .

- recognise that living things can be grouped in a variety of ways
- explore and use classification keys to help group, identify and name a variety of living things in their local and wider environment
- recognise that environments can change and that this can sometimes pose dangers to living things

Chemistry

States of Matter

Children will be taught to . . .

- compare and group materials together, according to whether they are solids, liquids or gases
- observe that some materials change state when they are heated or cooled, and measure or research the temperature at which this happens in degrees Celsius (°C)
- identify the part played by evaporation and condensation in the water cycle and associate the rate of evaporation with temperature

Physics

Sound

Children will be taught to . . .

- identify how sounds are made, associating some of them with something vibrating
- recognise that vibrations from sounds travel through a medium to the ear
- find patterns between the pitch of a sound and features of the object that produced it
- find patterns between the volume of a sound and strength of the vibrations that produce it
- recognise that sounds get fainter as the distance from the sound source increases

Electricity

Children will be taught to . . .

- identify common appliances that run on electricity
- construct a simple series circuit identifying and naming its basic parts and their purposes, including cells, wires, bulbs, switches and buzzers
- recognise that a switch opens and closes a circuit and associate this with whether or not a lamp lights in a simple series circuit
- recognise some common conductors and insulators, and associate metals with being good conductors

Design & Technology

Children will be taught to . . .

- use research and develop design criteria to inform the design of innovative, functional, appealing products that are fit for purpose, aimed at particular individuals or groups
- generate, develop, model and communicate their ideas through discussion, annotated sketches, cross-sectional and exploded diagrams, prototypes, pattern pieces and computer-aided design
- select from and use a wider range of tools and equipment to perform practical tasks [for example, cutting, shaping, joining and finishing], accurately
- select from and use a wider range of materials and components, including construction materials, textiles and ingredients, according to their functional properties and aesthetic qualities
- investigate and analyse a range of existing products
- evaluate their ideas and products against their own design criteria and consider the views of others to improve their work
- understand how key events and individuals in design and technology have helped shape the world
- apply their understanding of how to strengthen, stiffen and reinforce more complex structures
- understand and use mechanical systems in their products [for example, gears, pulleys, cams, levers and linkages]
- understand and use electrical systems in their products [for example, series circuits incorporating switches, bulbs, buzzers and motors]
- apply their understanding of computing to program, monitor and control their products.

Cooking and nutrition

- understand and apply the principles of a healthy and varied diet
- prepare and cook a variety of predominantly savoury dishes using a range of cooking techniques
- understand seasonality, and know where and how a variety of ingredients are grown, reared, caught and processed.

P.E.

Children will be taught to . . .

- play cricket, football, hockey, netball, rounders and tennis], and apply basic principles suitable for attacking and defending
- develop flexibility, strength, technique, control and balance [for example, through athletics and gymnastics]
- perform dances using a range of movement patterns
- take part in outdoor and adventurous activity challenges both individually and within a team
- compare their performances with previous ones and demonstrate improvement to achieve their personal best.
- use running, jumping, throwing and catching in isolation and in combination
- play competitive games, modified where appropriate [for example, badminton, basketball,

Geography

Children will be taught to . . .

- locate the world's countries, using maps to focus on Europe (including the location of Russia) and North and South America, concentrating on their environmental regions, key physical and human characteristics, countries, and major cities
- name and locate counties and cities of the United Kingdom, geographical regions and their identifying human and physical characteristics, key topographical features (including hills, mountains, coasts and rivers), and land-use patterns; and understand how some of these aspects have changed over time
- identify the position and significance of latitude, longitude, Equator, Northern Hemisphere, Southern Hemisphere, the Tropics of Cancer and Capricorn, Arctic and Antarctic Circle, the Prime/Greenwich Meridian and time zones (including day and night)
- understand geographical similarities and differences through the study of human and physical geography of a region of the United Kingdom, a region in a European country, and a region within North or South America
- understand physical geography, including: climate zones, biomes and vegetation belts, rivers, mountains, volcanoes and earthquakes, and the water cycle
- understand human geography, including: types of settlement and land use, economic activity including trade links, and the distribution of natural resources including energy, food, minerals and water
- use maps, atlases, globes and digital/computer mapping to locate countries and describe features studied
- use the eight points of a compass, four and six-figure grid references, symbols and key (including the use of Ordnance Survey maps) to build their knowledge of the United Kingdom and the wider world
- use fieldwork to observe, measure, record and present the human and physical features in the local area using a range of methods, including sketch maps, plans and graphs, and digital technologies.

History

Children will be taught . . .

- the changes in Britain from the Stone Age to the Iron Age
- the Roman Empire and its impact on Britain
- Britain's settlement by Anglo-Saxons and Scots
- the Viking and Anglo-Saxon struggle for the Kingdom of England to the time of Edward the Confessor
- a local history study
- a study of an aspect or theme in British history that extends pupils' chronological knowledge beyond 1066
- the achievements of the earliest civilizations – an overview of where and when the first civilizations appeared and a depth study of one of the following: Ancient Sumer; The Indus Valley; Ancient Egypt; The Shang Dynasty of Ancient China
- Ancient Greece – a study of Greek life and achievements and their influence on the western world
- a non-European society that provides contrasts with British history – one study chosen from: early Islamic civilization, including a study of Baghdad c. AD 900; Mayan civilization c. AD 900; Benin (West Africa) c. AD 900-1300.

Computing

Children will be taught to . . .

- design, write and debug programs that accomplish specific goals, including controlling or simulating physical systems; solve problems by decomposing them into smaller parts
- use sequence, selection, and repetition in programs; work with variables and various forms of input and output
- use logical reasoning to explain how some simple algorithms work and to detect and correct errors in algorithms and programs
- understand computer networks including the internet; how they can provide multiple services, such as the world wide web; and the opportunities they offer for communication and collaboration
- use search technologies effectively, appreciate how results are selected and ranked, and be discerning in evaluating digital content
- select, use and combine a variety of software (including internet services) on a range of digital devices to design and create a range of programs, systems and content that accomplish given goals, including collecting, analysing, evaluating and presenting data and information
- use technology safely, respectfully and responsibly; recognise acceptable/unacceptable behaviour; identify a range of ways to report concerns about content and contact.

Music

Children will be taught to . . .

- play and perform in solo and ensemble contexts, using their voices and playing musical instruments with increasing accuracy, fluency, control and expression
- improvise and compose music for a range of purposes using the inter-related dimensions of music
- listen with attention to detail and recall sounds with increasing aural memory
- use and understand staff and other musical notations
- appreciate and understand a wide range of high-quality live and recorded music drawn from different traditions and from great composers and musicians
- develop an understanding of the history of music.

MFL

Children will be taught to . . .

- listen attentively to spoken language and show understanding by joining in and responding
- explore the patterns and sounds of language through songs and rhymes and link the spelling, sound and meaning of words
- engage in conversations; ask and answer questions; express opinions and respond to those of others; seek clarification and help*
- speak in sentences, using familiar vocabulary, phrases and basic language structures
- develop accurate pronunciation and intonation so that others understand when they are reading aloud or using familiar words and phrases*
- present ideas and information orally to a range of audiences*
- read carefully and show understanding of words, phrases and simple writing
- appreciate stories, songs, poems and rhymes in the language
- broaden their vocabulary and develop their ability to understand new words that are introduced into familiar written material, including through using a dictionary
- write phrases from memory, and adapt these to create new sentences, to express ideas clearly
- describe people, places, things and actions orally* and in writing
- understand basic grammar appropriate to the language being studied, including (where relevant): feminine, masculine and neuter forms and the conjugation of high-frequency verbs; key features and patterns of the language; how to apply these, for instance, to build sentences; and how these differ from or are similar to English.

Art

Children will be taught to . . .

- to create sketch books to record their observations and use them to review and revisit ideas
- to improve their mastery of art and design techniques, including drawing, painting and sculpture with a range of materials [for example, pencil, charcoal, paint, clay]
- about great artists, architects and designers in history

RE

Children will be taught to . . .

- use a developing religious vocabulary to describe and show understanding of sources, practices, beliefs, ideas, feelings and experiences
- make links between them and describe some similarities and differences both within and between religions
- describe the impact of religion on peoples' lives
- suggest questions about religion and beliefs, making links between their own and others' responses
- make links between values and commitments and their own attitudes and behaviour

Spoken Language

Children will be taught to . . .

- listen and respond to statements and questions posed by adults and other learners; ask relevant questions to extend their understanding and knowledge; take opportunities to learn new vocabulary across all subjects
- articulate and justify answers, arguments and opinions; give well-structured descriptions, explanations and narratives for different purposes, including for expressing feelings
- maintain attention and participate actively in collaborative conversations, staying on topic and initiating and responding to comments; use spoken language to develop understanding through speculating, hypothesising, imagining and exploring ideas
- speak audibly and fluently with an increasing command of Standard English; participate in discussions, presentations, performances, role play, improvisations and debates; gains, maintains and monitors the interest of the listener(s)
- consider and evaluate different viewpoints, attending to and building on the contributions of others; selects and uses appropriate registers for effective communication.

Reading – Word Reading

Children will be taught to . . .

- apply a growing knowledge of root words, prefixes and suffixes (as listed in English Appendix 1), both to read aloud and to understand the meaning of new words that they meet.

Reading – Comprehension

Children will be taught to . . .

- read and discuss an increasingly wide range of fiction, poetry, plays, non-fiction and reference books or textbooks; read books that are structured in different ways and reading for a range of purposes
- recommend books that they have read to their peers, give reasons for their choices
- identify and discuss themes and conventions in and across a wide range of writing, making comparisons within and across books
- learn a wide range of poetry by heart; prepare poems and plays to read aloud and to perform, showing understanding through intonation, tone and volume so that the meaning is clear to an audience
- check that the book makes sense to them, discuss their understanding and explore the meaning of words in context; asks questions to improve their understanding
- draw inferences such as inferring characters' feelings, thoughts and motives from their actions, and justify inferences with evidence; predict what might happen from details stated and implied
- summarise the main ideas drawn from more than one paragraph, identify key details that support the main ideas; identifies how language, structure and presentation contribute to meaning
- discuss and evaluate how authors use language, including figurative language, considering the impact on the reader
- distinguish between statements of fact and opinion; retrieves, records and presents information from non-fiction
- participate in discussions about books that are read to them and those they can read for themselves, building on their own and others' ideas and challenging views courteously; explain and discuss their understanding of what they have read, including through formal presentations and debates, maintaining a focus on the topic and using notes where necessary; provides reasoned justifications for their views.

Writing

Spelling

Children will be taught to . . .

- use further prefixes and suffixes and understand the guidance for adding them
- spell some words with 'silent' letters [for example, knight, psalm, solemn]
- distinguish between homophones and other words which are often confused; spells of some words needs to be learnt specifically, as listed in English Appendix 1
- use dictionaries to check the spelling and meaning of words; use the first three or four letters of a word to check spelling, meaning or both of these in a dictionary; uses a thesaurus.

Handwriting

Children will be taught to . . .

- write legibly, fluently and with increasing speed by choosing which shape of a letter to use when given choices and deciding whether or not to join specific letters; chooses the writing implement that is best suited for a task.

Grammar (See English Appendix 2 for guidance)

Children will be taught to . . .

- recognise vocabulary and structures that are appropriate for formal speech and writing, including subjunctive forms
- use passive verbs to affect the presentation of information in a sentence; uses the perfect form of verbs to mark relationships of time and cause
- use expanded noun phrases to convey complicated information concisely; use modal verbs or adverbs to indicate degrees of possibility
- use relative clauses beginning with who, which, where, when, whose, that or with an implied (i.e. omitted) relative pronoun
- learn the grammar for years 5 and 6 in English Appendix 2
- use commas to clarify meaning or avoid ambiguity in writing
- use hyphens to avoid ambiguity; use brackets, dashes or commas to indicate parenthesis
- use semi-colons, colons or dashes to mark boundaries between independent clauses; use a colon to introduce a list
- punctuate bullet points consistently

Composition

Children will be taught to . . .

- identify the audience for and purpose of the writing, selecting the appropriate form and using other similar writing as models for their own
- note and develop initial ideas, drawing on reading and research where necessary
- write narratives, consider how authors have developed characters and settings in what pupils have read, listened to or seen performed
- select appropriate grammar and vocabulary, understanding how such choices can change and enhance meaning
- how narratives, describes settings, characters and atmosphere and integrating dialogue to convey character and advance the action
- précise longer passages
- use a wide range of devices to build cohesion within and across paragraphs; using further organisational and presentational devices to structure text and to guide the reader [for example, headings, bullet points, underlining]
- evaluate and edit by proposing changes to vocabulary, grammar and punctuation to enhance effects and clarify meaning
- proof-read for spelling and punctuation errors; ensure the consistent and correct use of tense throughout a piece of writing; correct subject and verb agreement when using singular and plural, distinguishing between the language of speech and writing and choosing the appropriate register
- perform their own compositions, using appropriate intonation, volume, and movement so that meaning is clear.

Year 5 Maths

Number - number and place value

Children will be taught to . . .

- read, write, order and compare numbers to at least 1 000 000 and determine the value of each digit
- count forwards or backwards in steps of powers of 10 for any given number up to 1 000 000
- interpret negative numbers in context, count forwards and backwards with positive and negative whole numbers, including through zero
- round any number up to 1 000 000 to the nearest 10, 100, 1000, 10 000 and 100 000
- solve number problems and practical problems that involve all of the above
- read Roman numerals to 1000 (M) and recognise years written in Roman numerals.
- use calculator methods to include several digits

Number – addition and subtraction

Children will be taught to . . .

- add and subtract whole numbers with more than 4 digits, including using formal written methods (columnar addition and subtraction)
- calculate mentally a difference such as 8006 - 2993
- add and subtract numbers mentally with increasingly large numbers
- use rounding to check answers to calculations and determine, in the context of a problem, levels of accuracy
- solve addition and subtraction multi-step problems in contexts, deciding which operations and methods to use and why.

Number – multiplication and division

Children will be taught to . . .

- identify multiples and factors, including finding all factor pairs of a number, and common factors of two numbers
- know and use the vocabulary of prime numbers, prime factors and composite (non-prime) numbers
- establish whether a number up to 100 is prime and recall prime numbers up to 19
- multiply numbers up to 4 digits by a one- or two-digit number using a formal written method, including long multiplication for two-digit numbers
- multiply and divide numbers mentally drawing upon known facts
- divide numbers up to 4 digits by a one-digit number using the formal written method of short division and interpret remainders appropriately for the context
- multiply and divide whole numbers and those involving decimals by 10, 100 and 1000
- recognise and use square numbers and cube numbers, and the notation for squared (2) and cubed (3)
- solve problems involving multiplication and division including using their knowledge of factors and multiples, squares and cubes
- solve problems involving addition, subtraction, multiplication and division and a combination of these, including understanding the meaning of the equals sign
- know multiplication facts up to 12 x 12 (In old Curriculum was 10 x 10 but think it should be to 12)
- solve problems involving multiplication and division, including scaling by simple fractions and problems involving simple rates.

Number – fractions (including decimals and percentages)

Children will be taught to . . .

- compare and order fractions whose denominators are all multiples of the same number
- identify, name and write equivalent fractions of a given fraction, represented visually, including tenths and hundredths
- recognise mixed numbers and improper fractions and convert from one form to the other and write mathematical statements > 1 as a

mixed number [for example, $\frac{2}{5} + \frac{4}{5} = \frac{6}{5} = 1\frac{1}{5}$]

- add and subtract fractions with the same denominator and denominators that are multiples of the same number
- multiply proper fractions and mixed numbers by whole numbers, supported by materials and diagrams
- read and write decimal numbers as fractions [for example, $0.71 = \frac{71}{100}$]
- recognise and use thousandths and relate them to tenths, hundredths and decimal equivalents
- round decimals with two decimal places to the nearest whole number and to one decimal place
- read, write, order and compare numbers with up to three decimal places
- solve problems involving number up to three decimal places
- recognise the per cent symbol (%) and understand that per cent relates to 'number of parts per hundred', and write percentages as a fraction with denominator 100, and as a decimal
- solve problems which require knowing percentage and decimal equivalents of $\frac{1}{2}$, $\frac{1}{4}$, $\frac{1}{5}$, $\frac{2}{5}$, $\frac{4}{5}$ and those fractions with a denominator of a multiple of 10 or 25.

Year 5 Maths

Measurement

Children will be taught to . . .

- convert between different units of metric measure (for example, kilometre and metre; centimetre and metre; centimetre and millimetre; gram and kilogram; litre and millilitre)
- understand and use with increasing accuracy approximate equivalences between metric units and common imperial units such as inches, pounds and pints
- measure and calculate the perimeter of composite rectilinear shapes in centimetres and metres
- calculate and compare the area of rectangles using a formula (including squares), and including using standard units, square centimetres (cm^2) and square metres (m^2) and estimate the area of irregular shapes
- estimate volume [for example, using 1 cm^3 blocks to build cuboids (including cubes)] and capacity [for example, using water]
- solve problems involving converting between units of time
- use all four operations to solve problems involving measure [for example, length, mass, volume, money] using decimal notation, including scaling.

Geometry – properties of shapes

Children will be taught to . . .

- identify 3-D shapes, including cubes and other cuboids, from 2-D representations
- know angles are measured in degrees: estimate and compare acute, obtuse and reflex angles
- draw given angles, and measure them in degrees ($^\circ$)
- identify:
 - angles at a point and one whole turn (total 360°)
 - angles at a point on a straight line and $\frac{1}{2}$ a turn (total 180°)
 - other multiples of 90°
- use the properties of rectangles to deduce related facts and find missing lengths and angles
- distinguish between regular and irregular polygons based on reasoning about equal sides and angles.
- Recognise parallel and perpendicular lines

Geometry –position and direction

Children will be taught to . . .

- identify, describe and represent the position of a shape following a reflection or translation, using the appropriate language, and know that the shape has not change
- draw common 2D and 3D shapes in different orientations on grids

Geometry – statistics

Children will be taught to . . .

- solve comparison, sum and difference problems using information presented in a line graph
- complete, read and interpret information in tables, including timetables.
- understand and use Mode and Median

Working Scientifically

Plan

Children will be taught to . . .

- plan different types of scientific enquiries to answer questions, including recognising and controlling variables where necessary

Do

Children will be taught to . . .

- take measurements, using a range of scientific equipment, with increasing accuracy and precision, taking repeat readings where appropriate
- record data and results of increasing complexity using scientific diagrams and labels, classification keys, tables, scatter graphs, bar and line graphs

Review

Children will be taught to . . .

- report and present findings from enquiries, including conclusions, causal relationships and explanations of and degree of trust in results, in oral and written forms such as displays and other presentations
- use test results to make predictions to set up further comparative and fair tests
- identifying scientific evidence that has been used to support or refute ideas or arguments

Biology

Animals including humans

Children will be taught to . . .

- describe the changes as humans develop to old age
- use scientific names for major organs of body systems, including the circulatory system and identify these organs in the human body

Living things in their environment

Children will be taught to . . .

- describe the differences in the life cycles of a mammal, an amphibian, an insect and a bird
- describe the life process of reproduction in some plants and animals
- use keys based on observable external features to help them identify and group living things systematically
- recognise that feeding relationships exist between plants and animals in a habitat, and describe these relationships, using food chains

Chemistry

Properties and changes of materials

Children will be taught to . . .

- compare and group together everyday materials on the basis of their properties, including their hardness, solubility, transparency, conductivity (electrical and thermal), and response to magnets
- know that some materials will dissolve in liquid to form a solution, and describe how to recover a substance from a solution
- use knowledge of solids, liquids and gases to decide how mixtures might be separated, including through filtering, sieving and evaporating
- give reasons, based on evidence from comparative and fair tests, for the particular uses of everyday materials, including metals, wood and plastic
- demonstrate that dissolving, mixing and changes of state are reversible changes
- explain that some changes result in the formation of new materials, and that this kind of change is not usually reversible, including changes associated with burning and the action of acid on bicarbonate of soda

Physics

Forces

Children will be taught to . . .

- explain that unsupported objects fall towards the Earth because of the force of gravity acting between the Earth and the falling object
- identify the effects of air resistance, water resistance and friction, that act between moving surfaces
- recognise that some mechanisms, including levers, pulleys and gears, allow a smaller force to have a greater effect

Earth and Space

Children will be taught to . . .

- describe the movement of the Earth, and other planets, relative to the Sun in the solar system
- describe the movement of the Moon relative to the Earth
- describe the Sun, Earth and Moon as approximately spherical bodies
- use the idea of the Earth's rotation to explain day and night and that apparent movement of the sun across the sky

Geography

Children will be taught to . . .

- locate the world's countries, using maps to focus on Europe (including the location of Russia) and North and South America, concentrating on their environmental regions, key physical and human characteristics, countries, and major cities
- name and locate counties and cities of the United Kingdom, geographical regions and their identifying human and physical characteristics, key topographical features (including hills, mountains, coasts and rivers), and land-use patterns; and understand how some of these aspects have changed over time
- identify the position and significance of latitude, longitude, Equator, Northern Hemisphere, Southern Hemisphere, the Tropics of Cancer and Capricorn, Arctic and Antarctic Circle, the Prime/Greenwich Meridian and time zones (including day and night)
- understand geographical similarities and differences through the study of human and physical geography of a region of the United Kingdom, a region in a European country, and a region within North or South America
- describe and understand key aspects of:
 - about physical geography, including: climate zones, biomes and vegetation belts, rivers, mountains, volcanoes and earthquakes, and the water cycle
 - about human geography, including: types of settlement and land use, economic activity including trade links, and the distribution of natural resources including energy, food, minerals and water
- use maps, atlases, globes and digital/computer mapping to locate countries and describe features studied
- use the eight points of a compass, four and six-figure grid references, symbols and key (including the use of Ordnance Survey maps) to build their knowledge of the United Kingdom and the wider world
- use fieldwork to observe, measure, record and present the human and physical features in the local area using a range of methods, including sketch maps, plans and graphs, and digital technologies.

MFL

Children will be taught to . . .

- listen attentively to spoken language and show understanding by joining in and responding
- explore the patterns and sounds of language through songs and rhymes and link the spelling, sound and meaning of words
- engage in conversations; ask and answer questions; express opinions and respond to those of others; seek clarification and help*
- speak in sentences, using familiar vocabulary, phrases and basic language structures
- develop accurate pronunciation and intonation so that others understand when they are reading aloud or using familiar words and phrases*
- present ideas and information orally to a range of audiences*
- read carefully and show understanding of words, phrases and simple writing
- appreciate stories, songs, poems and rhymes in the language
- broaden their vocabulary and develop their ability to understand new words that are introduced into familiar written material, including through using a dictionary
- write phrases from memory, and adapt these to create new sentences, to express ideas clearly
- describe people, places, things and actions orally* and in writing
- understand basic grammar appropriate to the language being studied, including (where relevant): feminine, masculine and neuter forms and the conjugation of high-frequency verbs; key features and patterns of the language; how to apply these, for instance, to build sentences; and how these differ from or are similar to English.

Art

Children will be taught to . . .

- to create sketch books to record their observations and use them to review and revisit ideas
- to improve their mastery of art and design techniques, including drawing, painting and sculpture with a range of materials [for example, pencil, charcoal, paint, clay]
- to find out about great artists, architects and designers in history.

Design & Technology

Children will be taught to . . .

- use research and develop design criteria to inform the design of innovative, functional, appealing products that are fit for purpose, aimed at particular individuals or groups
- generate, develop, model and communicate their ideas through discussion, annotated sketches, cross-sectional and exploded diagrams, prototypes, pattern pieces and computer-aided design
- select from and use a wider range of tools and equipment to perform practical tasks [for example, cutting, shaping, joining and finishing], accurately
- select from and use a wider range of materials and components, including construction materials, textiles and ingredients, according to their functional properties and aesthetic qualities
- investigate and analyse a range of existing products
- evaluate their ideas and products against their own design criteria and consider the views of others to improve their work
- understand how key events and individuals in design and technology have helped shape the world
- apply their understanding of how to strengthen, stiffen and reinforce more complex structures
- understand and use mechanical systems in their products [for example, gears, pulleys, cams, levers and linkages]
- understand and use electrical systems in their products [for example, series circuits incorporating switches, bulbs, buzzers and motors]
- apply their understanding of computing to program, monitor and control their products.

Cooking and nutrition

- understand and apply the principles of a healthy and varied diet
- prepare and cook a variety of predominantly savoury dishes using a range of cooking techniques
- understand seasonality, and know where and how a variety of ingredients are grown, reared, caught and processed.

Music

Children will be taught to . . .

- play and perform in solo and ensemble contexts, using their voices and playing musical instruments with increasing accuracy, fluency, control and expression
- improvise and compose music for a range of purposes using the inter-related dimensions of music
- listen with attention to detail and recall sounds with increasing aural memory
- use and understand staff and other musical notations
- appreciate and understand a wide range of high-quality live and recorded music drawn from different traditions and from great composers and musicians
- develop an understanding of the history of music.

P.E.

Children will be taught to . . .

- use running, jumping, throwing and catching in isolation and in combination
- play competitive games, modified where appropriate [for example, badminton, basketball, cricket, football, hockey, netball, rounders and tennis], and apply basic principles suitable for attacking and defending
- develop flexibility, strength, technique, control and balance [for example, through athletics and gymnastics]
- perform dances using a range of movement patterns
- take part in outdoor and adventurous activity challenges both individually and within a team
- compare their performances with previous ones and demonstrate improvement to achieve their personal best.

RE

Children will be taught to ...

- pupils use an increasingly wide religious vocabulary to explain the impact of beliefs on individuals and communities
- describe why people belong to religions
- understand that similarities and differences illustrate distinctive beliefs within and between religions and suggest possible reasons for this
- explain how religious sources are used to provide answers to ultimate questions and ethical issues, recognising diversity in forms of religious, spiritual and moral expression, within and between religions
- pupils raise and suggest answers to questions of identity, belonging, meaning, purpose, truth, values and commitments
- apply their ideas to their own and other people's lives
- describe what inspires and influences themselves and others

History

Children will be taught . . .

- about the changes in Britain from the Stone Age to the Iron Age
- about the Roman Empire and its impact on Britain
- about Britain's settlement by Anglo-Saxons and Scots
- about the Viking and Anglo-Saxon struggle for the Kingdom of England to the time of Edward the Confessor
- local history
- an aspect or theme in British history that extends pupils' chronological knowledge beyond 1066
- about the achievements of the earliest civilizations – an overview of where and when the first civilizations appeared and a depth study of one of the following: Ancient Sumer; The Indus Valley; Ancient Egypt; The Shang Dynasty of Ancient China
- about Ancient Greece – a study of Greek life and achievements and their influence on the western world
- about a non-European society that provides contrasts with British history – one study chosen from: early Islamic civilization, including a study of Baghdad c. AD 900; Mayan civilization c. AD 900; Benin (West Africa) c. AD 900-1300.

Computing

Children will be taught to . . .

- design, write and debug programs that accomplish specific goals, including controlling or simulating physical systems; solve problems by decomposing them into smaller parts
- use sequence, selection, and repetition in programs; work with variables and various forms of input and output
- use logical reasoning to explain how some simple algorithms work and to detect and correct errors in algorithms and programs
- understand computer networks including the internet; how they can provide multiple services, such as the world wide web; and the opportunities they offer for communication and collaboration
- use search technologies effectively, appreciate how results are selected and ranked, and be discerning in evaluating digital content
- select, use and combine a variety of software (including internet services) on a range of digital devices to design and create a range of programs, systems and content that accomplish given goals, including collecting, analysing, evaluating and presenting data and information
- use technology safely, respectfully and responsibly; recognise acceptable/unacceptable behaviour; identify a range of ways to report concerns about content and contact.

Spoken Language

Children will be taught to . . .

- listen and respond to statements and questions posed by adults and other learners; ask relevant questions to extend their understanding and knowledge; take opportunities to learn new vocabulary across all subjects
- articulate and justify answers, arguments and opinions; give well-structured descriptions, explanations and narratives for different purposes, including for expressing feelings
- maintain attention and participate actively in collaborative conversations, staying on topic and initiating and responding to comments; use spoken language to develop understanding through speculating, hypothesising, imagining and exploring ideas
- speak audibly and fluently with an increasing command of Standard English; participate in discussions, presentations, performances, role play, improvisations and debates; gains, maintains and monitors the interest of the listener(s)
- consider and evaluate different viewpoints, attending to and building on the contributions of others; selects and uses appropriate registers for effective communication.

Reading – Word Reading

Children will be taught to . . .

- apply a growing knowledge of root words, prefixes and suffixes (as listed in English Appendix 1), both to read aloud and to understand the meaning of new words that they meet.

Reading – Comprehension

Children will be taught to . . .

- read and discuss an increasingly wide range of fiction, poetry, plays, non-fiction and reference books or textbooks; read books that are structured in different ways and reading for a range of purposes
- recommend books that they have read to their peers, giving reasons for their choices
- identify and discuss themes and conventions in and across a wide range of writing, making comparisons within and across books
- learn a wide range of poetry by heart; prepares poems and plays to read aloud and to perform, showing understanding through intonation, tone and volume so that the meaning is clear to an audience
- check that the book makes sense to them, discussing their understanding and exploring the meaning of words in context; ask questions to improve their understanding
- draw inferences such as inferring characters' feelings, thoughts and motives from their actions, and justifying inferences with evidence; predicts what might happen from details stated and implied
- summarises the main ideas drawn from more than one paragraph, identifies key details that support the main ideas; identifies how language, structure and presentation contribute to meaning
- discuss and evaluate how authors use language, including figurative language, considering the impact on the reader
- distinguish between statements of fact and opinion; retrieves, records and presents information from non-fiction
- participate in discussions about books that are read to them and those they can read for themselves, building on their own and others' ideas and challenging views courteously; explains and discusses their understanding of what they have read, including through formal presentations and debates, maintaining a focus on the topic and using notes where necessary; provides reasoned justifications for their views.

Writing

Spelling

Children will be taught to . . .

- use further prefixes and suffixes and understand the guidance for adding them
- spell some words with 'silent' letters [for example, knight, psalm, solemn]
- distinguish between homophones and other words which are often confused; spells of some words needs to be learnt specifically, as listed in English Appendix 1
- use dictionaries to check the spelling and meaning of words; uses the first three or four letters of a word to check spelling, meaning or both of these in a dictionary; uses a thesaurus.

Handwriting

Children will be taught to . . .

- write legibly, fluently and with increasing speed by choosing which shape of a letter to use when given choices and deciding whether or not to join specific letters; chooses the writing implement that is best suited for a task.

Grammar (See English Appendix 2 for guidance)

Children will be taught to . . .

- recognise vocabulary and structures that are appropriate for formal speech and writing, including subjunctive forms
- use passive verbs to affect the presentation of information in a sentence; uses the perfect form of verbs to mark relationships of time and cause
- use expanded noun phrases to convey complicated information concisely; uses modal verbs or adverbs to indicate degrees of possibility
- use relative clauses beginning with who, which, where, when, whose, that or with an implied (i.e. omitted) relative pronoun
- learn the grammar for years 5 and 6 in English Appendix 2
- use commas to clarify meaning or avoid ambiguity in writing
- use hyphens to avoid ambiguity; uses brackets, dashes or commas to indicate parenthesis
- use semi-colons, colons or dashes to mark boundaries between independent clauses; uses a colon to introduce a list
- punctuate bullet points consistently

Composition

Children will be taught to . . .

- identify the audience for and purpose of the writing, selecting the appropriate form and using other similar writing as models for their own
- note and develop initial ideas, drawing on reading and research where necessary
- when writing narratives, consider how authors have developed characters and settings in what pupils have read, listened to or seen performed
- select appropriate grammar and vocabulary, understanding how such choices can change and enhance meaning
- recognise narratives, describes settings, characters and atmosphere and integrating dialogue to convey character and advance the action
- précise longer passages
- uses a wide range of devices to build cohesion within and across paragraphs; using further organisational and presentational devices to structure text and to guide the reader [for example, headings, bullet points, underlining]
- evaluate and edit by proposing changes to vocabulary, grammar and punctuation to enhance effects and clarify meaning
- proof-read for spelling and punctuation errors; ensure the consistent and correct use of tense throughout a piece of writing; correct subject and verb agreement when using singular and plural, distinguishing between the language of speech and writing and choosing the appropriate register
- perform their own compositions, using appropriate intonation, volume, and movement so that meaning is clear.

Number – number and place value

Children will be taught to . . .

- read, write, order and compare numbers up to 10 000 000 and determine the value of each digit
- round any whole number to a required degree of accuracy
- use negative numbers in context, and calculate intervals across zero
- solve number and practical problems that involve all of the above.

Number – addition, subtraction, multiplication and division

Children will be taught to . . .

- multiply multi-digit numbers up to 4 digits by a two-digit whole number using the formal written method of long multiplication
- divide numbers up to 4 digits by a two-digit whole number using the formal written method of long division, and interpret remainders as whole number remainders, fractions, or by rounding, as appropriate for the context
- divide numbers up to 4 digits by a two-digit number using the formal written method of short division where appropriate, interpreting remainders according to the context
- perform mental calculations, including with mixed operations and large numbers
- identify common factors, common multiples and prime numbers
- use their knowledge of the order of operations to carry out calculations involving the four operations
- solve addition and subtraction multi-step problems in contexts, deciding which operations and methods to use and why
- solve problems involving addition, subtraction, multiplication and division
- use estimation to check answers to calculations and determine, in the context of a problem, an appropriate degree of accuracy.
- derive quickly division and multiplication facts up to 12×12 (was 10×10 in old curriculum)
- check solutions by applying inverse operations or estimating using approximations

Number – fractions (including decimals and percentages)

Children will be taught to . . .

- use common factors to simplify fractions; use common multiples to express fractions in the same denomination
- use a fraction as an operator to find fractions of quantities eg $\frac{5}{8}$ of 32
- compare and order fractions, including fractions > 1
- add and subtract fractions with different denominators and mixed numbers, using the concept of equivalent fractions
- multiply simple pairs of proper fractions, writing the answer in its simplest form [for example, $\frac{1}{2} \times \frac{3}{4} = \frac{3}{8}$]
- divide proper fractions by whole numbers [for example, $\frac{3}{4} \div 2 = \frac{3}{8}$]
- associate a fraction with division and calculate decimal fraction equivalents [for example, 0.375] for a simple fraction [for example, $\frac{3}{8}$]
- identify the value of each digit in numbers given to three decimal places and multiply and divide numbers by 10, 100 and 1000 giving answers up to three decimal places
- multiply one-digit numbers with up to two decimal places by whole numbers
- use written division methods in cases where the answer has up to two decimal places
- solve problems which require answers to be rounded to specified degrees of accuracy
- recall and use equivalences between simple fractions, decimals and percentages, including in different contexts.

Year 6 Maths

Ratio and proportion

Children will be taught to . . .

- solve problems involving the relative sizes of two quantities where missing values can be found by using integer multiplication and division facts
- solve problems involving the calculation of percentages [for example, of measures, and such as 15% of 360] and the use of percentages for comparison
- solve problems involving similar shapes where the scale factor is known or can be found
- solve problems involving unequal sharing and grouping using knowledge of fractions and multiples.
- understand and use vocabulary associated with probability

Algebra

Children will be taught to . . .

- use simple formulae
- generate and describe linear number sequences
- express missing number problems algebraically
- find pairs of numbers that satisfy an equation with two unknowns
- enumerate possibilities of combinations of two variables.

Measurement

Children will be taught to . . .

- solve problems involving the calculation and conversion of units of measure, using decimal notation up to three decimal places where appropriate
- use, read, write and convert between standard units, converting measurements of length, mass, volume and time from a smaller unit of measure to a larger unit, and vice versa, using decimal notation to up to three decimal places
- convert between miles and kilometres
- recognise that shapes with the same areas can have different perimeters and vice versa
- recognise when it is possible to use formulae for area and volume of shapes and calculate the area and perimeter of compound shapes
- calculate the area of parallelograms and triangles
- calculate, estimate and compare volume of cubes and cuboids using standard units, including cubic centimetres (cm^3) and cubic metres (m^3), and extending to other units [for example, mm^3 and km^3].

Geometry – Properties of shapes

Children will be taught to . . .

- draw 2-D shapes using given dimensions and angles on grids linking faces and edges
- recognise, describe and build simple 3-D shapes, including making nets
- compare and classify geometric shapes based on their properties and sizes and find unknown angles in any triangles, quadrilaterals, and regular polygons
- illustrate and name parts of circles, including radius, diameter and circumference and know that the diameter is twice the radius
- recognise and draw angles where they meet at a point, are on a straight line, or are vertically opposite, and find missing angles.

Geometry – Position and direction

Children will be taught to . . .

- describe positions on the full coordinate grid (all four quadrants)
- draw, translate and rotate simple shapes on the coordinate plane, and reflect them in the axes.

Geometry – Statistics

Children will be taught to . . .

- interpret and construct pie charts and line graphs and use these to solve problems
- calculate and interpret the mean as an average
- use and understand mode and median (Perhaps we should also include Mean as the most important type of average and range)
- collect discrete data and record them using a frequency table
- group data in equal class intervals

Work Scientifically

Plan

Children will be taught to . . .

- plan different types of scientific enquiries to answer questions, including recognising and controlling variables where necessary

Do

Children will be taught to . . .

- take measurements, using a range of scientific equipment, with increasing accuracy and precision, taking repeat readings where appropriate
- record data and results of increasing complexity using scientific diagrams and labels, classification keys, tables, scatter graphs, bar and line graphs

Review

Children will be taught to . . .

- report and present findings from enquiries, including conclusions, causal relationships and explanations of and degree of trust in results, in oral and written forms such as displays and other presentations
- use test results to make predictions to set up further comparative and fair tests
- identifying scientific evidence that has been used to support or refute ideas or arguments

Biology

Children will be taught to . . .

Animals, including humans

- identify and name the main parts of the human circulatory system, and describe the functions of the heart, blood vessels and blood
- recognise the impact of diet, exercise, drugs and lifestyle on the way their bodies function
- describe the ways in which nutrients and water are transported within animals, including humans

Year 6 Science

Physics

Children will be taught to . . .

Light

- recognise that light appears to travel in straight lines
- use the idea that light travels in straight lines to explain that objects are seen because they give out or reflect light into the eye
- explain that we see things because light travels from light sources to our eyes or from light sources to objects and then to our eyes
- use the idea that light travels in straight lines to explain why shadows have the same shape as the objects that cast them

Electricity

Children will be taught to . . .

- associate the brightness of a lamp or the volume of a buzzer with the number and voltage of cells used in the circuit
- compare and give reasons for variations in how components function, including the brightness of bulbs, the loudness of buzzers and the on/off position of switches.
- use recognised symbols when representing a simple circuit in a diagram.

Living things and their habitats

Children will be taught to . . .

- describe how living things are classified into broad groups according to common observable characteristics and based on similarities and differences, including micro-organisms, plants and animals
- give reasons for classifying plants and animals based on specific characteristics

Evolution and Inheritance

Children will be taught to . . .

- recognise that living things have changed over time and that fossils provide information about living things that inhabited the Earth millions of years ago
- recognise that living things produce offspring of the same kind, but normally offspring vary and are not identical to their parents
- identify how animals and plants are adapted to suit their environment in different ways and that adaptation may lead to evolution

Geography

Children will be taught to . . .

- locate the world's countries, using maps to focus on Europe (including the location of Russia) and North and South America, concentrating on their environmental regions, key physical and human characteristics, countries, and major cities
- name and locate counties and cities of the United Kingdom, geographical regions and their identifying human and physical characteristics, key topographical features (including hills, mountains, coasts and rivers), and land-use patterns; and understand how some of these aspects have changed over time
- identify the position and significance of latitude, longitude, Equator, Northern Hemisphere, Southern Hemisphere, the Tropics of Cancer and Capricorn, Arctic and Antarctic Circle, the Prime/Greenwich Meridian and time zones (including day and night)
- understand geographical similarities and differences through the study of human and physical geography of a region of the United Kingdom, a region in a European country, and a region within North or South America
- physical geography, including: climate zones, biomes and vegetation belts, rivers, mountains, volcanoes and earthquakes, and the water cycle
- human geography, including: types of settlement and land use, economic activity including trade links, and the distribution of natural resources including energy, food, minerals and water
- use maps, atlases, globes and digital/computer mapping to locate countries and describe features studied
- use the eight points of a compass, four and six-figure grid references, symbols and key (including the use of Ordnance Survey maps) to build their knowledge of the United Kingdom and the wider world
- use fieldwork to observe, measure, record and present the human and physical features in the local area using a range of methods, including sketch maps, plans and graphs, and digital technologies.

Art

Children will be taught to . . .

- to create sketch books to record their observations and use them to review and revisit ideas
- to improve their mastery of art and design techniques, including drawing, painting and sculpture with a range of materials [for example, pencil, charcoal, paint, clay]
- find out about great artists, architects and designers in history.

RE

Children will be taught to . . .

- use religious vocabulary to give informed accounts of religions and beliefs, explaining the reasons for diversity within and between them
- explain why the impact of religions and beliefs on individuals, communities and societies varies
- interpret sources and arguments, explaining the reasons that are used in different ways by different traditions to provide answers to ultimate questions and ethical issues.
- may interpret the significance of different forms of religious, spiritual and moral expression for example prayer
- ask and suggest answers to questions of identity, belonging, meaning, purpose and truth, values and commitments, relating them to their own and others' lives
- explain what inspires and influences them, expressing their own and others' views on the challenges of belonging to a religion
- pupils may use reasoning and examples to express insights into the relationship between beliefs, teachings and world issues.
- express insights into their own and others' views on questions of identity and belonging, meaning, purpose and truth
- consider the challenges of belonging to a religion in the contemporary world, focusing on values and commitments

Design & Technology

Children will be taught to . . .

- use research and develop design criteria to inform the design of innovative, functional, appealing products that are fit for purpose, aimed at particular individuals or groups
- generate, develop, model and communicate their ideas through discussion, annotated sketches, cross-sectional and exploded diagrams, prototypes, pattern pieces and computer-aided design
- select from and use a wider range of tools and equipment to perform practical tasks [for example, cutting, shaping, joining and finishing], accurately
- select from and use a wider range of materials and components, including construction materials, textiles and ingredients, according to their functional properties and aesthetic qualities
- investigate and analyse a range of existing products
- evaluate their ideas and products against their own design criteria and consider the views of others to improve their work
- understand how key events and individuals in design and technology have helped shape the world
- apply their understanding of how to strengthen, stiffen and reinforce more complex structures
- understand and use mechanical systems in their products [for example, gears, pulleys, cams, levers and linkages]
- understand and use electrical systems in their products [for example, series circuits incorporating switches, bulbs, buzzers and motors]
- apply their understanding of computing to program, monitor and control their products.

Cooking and nutrition

- understand and apply the principles of a healthy and varied diet
- prepare and cook a variety of predominantly savoury dishes using a range of cooking techniques
- understand seasonality, and know where and how a variety of ingredients are grown, reared, caught and processed.

P.E.

Children will be taught to . . .

- use running, jumping, throwing and catching in isolation and in combination
- play competitive games, modified where appropriate [for example, badminton, basketball, cricket, football, hockey, netball, rounders and tennis], and apply basic principles suitable for attacking and defending
- develop flexibility, strength, technique, control and balance [for example, through athletics and gymnastics]
- perform dances using a range of movement patterns
- take part in outdoor and adventurous activity challenges both individually and within a team
- compare their performances with previous ones and demonstrate improvement to achieve their personal best.

Music

Children will be taught to . . .

- play and perform in solo and ensemble contexts, using their voices and playing musical instruments with increasing accuracy, fluency, control and expression
- improvise and compose music for a range of purposes using the inter-related dimensions of music
- listen with attention to detail and recall sounds with increasing aural memory
- use and understand staff and other musical notations
- appreciate and understand a wide range of high-quality live and recorded music drawn from different traditions and from great composers and musicians
- develop an understanding of the history of music.

MFL

Children will be taught to . . .

- listen attentively to spoken language and show understanding by joining in and responding
- explore the patterns and sounds of language through songs and rhymes and link the spelling, sound and meaning of words
- engage in conversations; ask and answer questions; express opinions and respond to those of others; seek clarification and help*
- speak in sentences, using familiar vocabulary, phrases and basic language structures
- develop accurate pronunciation and intonation so that others understand when they are reading aloud or using familiar words and phrases*
- present ideas and information orally to a range of audiences*
- read carefully and show understanding of words, phrases and simple writing
- appreciate stories, songs, poems and rhymes in the language
- broaden their vocabulary and develop their ability to understand new words that are introduced into familiar written material, including through using a dictionary
- write phrases from memory, and adapt these to create new sentences, to express ideas clearly
- describe people, places, things and actions orally* and in writing
- understand basic grammar appropriate to the language being studied, including (where relevant): feminine, masculine and neuter forms and the conjugation of high-frequency verbs; key features and patterns of the language; how to apply these, for instance, to build sentences; and how these differ from or are similar to English.

History

Children will be taught . . .

- about the changes in Britain from the Stone Age to the Iron Age
- about the Roman Empire and its impact on Britain
- about Britain's settlement by Anglo-Saxons and Scots
- that the Viking and Anglo-Saxon struggle for the Kingdom of England to the time of Edward the Confessor
- a local history study
- a study of an aspect or theme in British history that extends pupils' chronological knowledge beyond 1066
- the achievements of the earliest civilizations – an overview of where and when the first civilizations appeared and a depth study of one of the following: Ancient Sumer; The Indus Valley; Ancient Egypt; The Shang Dynasty of Ancient China
- Ancient Greece – a study of Greek life and achievements and their influence on the western world
- that a non-European society that provides contrasts with British history – one study chosen from: early Islamic civilization, including a study of Baghdad c. AD 900; Mayan civilization c. AD 900; Benin (West Africa) c. AD 900-1300.

Computing

Children will be taught to . . .

- design, write and debug programs that accomplish specific goals, including controlling or simulating physical systems; solve problems by decomposing them into smaller parts
- use sequence, selection, and repetition in programs; work with variables and various forms of input and output
- use logical reasoning to explain how some simple algorithms work and to detect and correct errors in algorithms and programs
- understand computer networks including the internet; how they can provide multiple services, such as the world wide web; and the opportunities they offer for communication and collaboration
- use search technologies effectively, appreciate how results are selected and ranked, and be discerning in evaluating digital content
- select, use and combine a variety of software (including internet services) on a range of digital devices to design and create a range of programs, systems and content that accomplish given goals, including collecting, analysing, evaluating and presenting data and information
- use technology safely, respectfully and responsibly; recognise acceptable/unacceptable behaviour; identify a range of ways to report concerns about content and contact.
