

3<sup>rd</sup> December 2018

**RE: Astronomy Club**

Dear Parent,

I am writing to inform you that, on a number of evenings throughout the year, we are planning to run an astronomy club. The club will be open to pupils, parents and friends. The first of these events will be on **Monday 17<sup>th</sup> December**.

The evening will begin at 7.00pm and is being organised and run by Michael Kimber who leads on science education in the school. He has invited to this first Astronomy Club this academic year Mac Currie, an astronomer from the Norman Lockyear observatory and a Science, Technology, Engineering and Maths (STEM) ambassador. Mac will be giving a presentation about space in the school hall as well as providing an opportunity to look through some telescopes on the school field (weather permitting.) The club will finish at approximately 9.00pm.

There will be an opportunity for questions and answers with Mac as well as a voluntary contribution to the Norman Lockyear observatory.

The evening is designed as a family event and as such parents must accompany their children and stay for the evening.

We will be serving some refreshments from the café in the hall and are wishing to have parent volunteers help in the serving of this food. We will be serving hot dogs, tomato soup and crisps. If you are able to help volunteer with the refreshments or have any questions regarding the evening please contact Michael via email [mkimber@bcps.org.uk](mailto:mkimber@bcps.org.uk)

Spaces are limited so please book via Eventbrite [here](#) as soon as possible.

Yours sincerely,

**Jonathan Bishop**  
Executive Headteacher
