RE: Telescope Training

Dear Parent,

Following the success of the recent astronomy clubs, we are going to be allowing parents and families to use the school telescope in the evenings. We are inviting parents to sign up to be part of a closed Facebook group, to coordinate visits in the evenings. If you would like to become a member of the group, and have not already signed up, please do so [here](#) or contact Michael Kimber michael.kimber@tcat.education

If you choose to join, we will supply you with an astronomy badge which will open the main school gate in the evenings so that you can gain access to the telescope and we will also provide you with training on how to use the telescope.

Our first training session will be on **Monday 13th May at 8.00pm.**

Please note that you do not need to be signed up to the Facebook group or trained to use the telescope to attend our Astronomy Club events as we will communicate and run these as we have done in the past.

Yours sincerely,

Jonathan Bishop
Executive Headteacher
