RE: Keep Your Child Safe Online!

Dear Parent,

I am writing to inform you that we are hosting a **'Keep Your Child Safe Online'** event on **Thursday 16th May at 7pm.**

We all recognise that there is a need to protect our children in the modern day world of using technology but often many of us are unsure how to do this. This event promises to provide a fantastic insight and overview of such issues. The event will include the latest advice and explain how you as parents can practically apply this in the home for all forms of technology.

The session is aimed at supporting all children from **Nursery through to Year 6** and will be led by Anthony Lees and Tracey Wills.

We will look at what, for many of you, may be surprising data from our in-house pupil surveys of the use of technology at home. We plan to make the event as interactive as possible, with plenty of opportunities for questions and discussion.

Please book your place [here](#)

We are offering the opportunity for virtual attendance of this meeting via Skype, however I do believe attendance in person may be more beneficial. If you would like to join the meeting via Skype however, please [click here](#).

The event will take place in the school hall and refreshments will be available from 6.30pm.

I believe this is an event that will be invaluable to everyone and I really hope that you are able to attend.

Yours sincerely,

Jonathan Bishop
Executive Headteacher
