RE: Sport England Active Lives Survey – Year 2

Dear Parent,

Sport England is looking to find out about the sorts of sports and physical activities that children and young people take part in, both in and out of school. For children in Year 2, they would also like to ask parents about what types of activities their children take part in, including cycling, walking, dance and sport. The information collected through the survey will help Sport England to invest in opportunities for children and young people to take part in and benefit from sport and physical activity.

Our school has agreed to take part in this research and your child will be asked to complete a very simple online questionnaire. They will have an individual questionnaire but will be completing it at a time and place where other children from their class will also be taking part, during the school day. We will provide each child with information in advance to explain what the research is about and what the survey will be like. If your child doesn't wish to take part they can tell their teacher this on the day.

If you do not want your child to take part in this research, please let Mark Harrison mark.harrison@tcat.education or your child's class teacher know by 9am tomorrow. If you are happy for your child to take part, you do not need to do anything.

In addition, Sport England would also like you to complete an online questionnaire which will take about 20 minutes. This will supplement the answers your child gives with more detailed information and will help to build a broader picture of activities done by children of this age. You can complete the survey at home and many parents find it helpful to complete the survey with their child present. Please complete this survey, thinking about your child, by clicking [here](#) The deadline for completion of the survey is **Friday 12th April**.

Ipsos MORI will store your child's information securely and keep it confidential. The County Sports Partnership and Sport England will know which schools and year groups have taken part but they will not know which individual children or parents have taken part. You and your child will not be required to provide your names, only anonymous data will be reported. The results will be presented in a statistical report and no individual child, parent or school will be identified in the published report or statistics. Our school will also receive a report summarising our results from the survey – survey responses will be combined so that individual pupils or parents cannot be identified in this report.

The research is being conducted in accordance with the Market Research Society Code of Conduct. If you would like any further information about this project or the questionnaire testing, please contact your local CSP – Active Devon – via email to schools@activedevon.org or by calling 01392 925150.

Yours sincerely,

Jonathan Bishop
Executive Headteacher
